BLINDFOLDED

Choice of coal for industrial purposes calls for a most thorough and careful analysis of every factor pertaining to conditions and equipment which enters into the problem of combustion.

If you feel blindfolded, a little uncertain, as you face the problem of selecting coal for your own plant, a survey made without obligation by a trained Lehigh Navigation Coal Company man, will help you chart an intelligent and a wise purchasing plan.

Old Company's Anthracite, when burned under suitable conditions, has invariably made an enviable record for economy, in steam generation cost during its more than a century of use. Our expert will be able to tell you how to make it deliver maximum returns per dollar.

BETWEEN The LINES

After reading in our last issue the exposé of "Bill" Colling, Song-Pusher Extraordinary of the New York Lehigh Club, A. Parker-Smith, '84, one of the pillars of that noted organization, "apologizes" for his heretofore perfunctory whoopee-making:

Dear Buck:

After reading in the June BULLETIN your reprint of Kit Morley's "Life and Times of 'Bill' Colling," I feel that I owe Bill an apology. I have always liked and admired him personally, but in his official capacity at Lehigh dinners I have considered him more or less of a chartered pest, who is always calling on me for "Three raw rahs for Lehigh!" in the middle of each course—when my mouth is full.

Since I am like

"Gentle Jane, who was good as gold
(in Patience),
Who always did as she was told
And never spoke when her mouth
was full,
Nor caught bluebottles their legs
to pull," etc.

... I have consequently been torn between conflicting command and inhibition, with incidental incipient strangulation.

But now that I know, by the record, that Bill is seven different kinds of a Beloved Vagabond, famous alike in this country and in Hoboken (which is opposite the United States), I shall hesitate no longer, but come across promptly with unlimited "Rah, Rahs!" whenever Bill casts his spell of woven paces and of waving hands—however muffled and half chewed said "Rah, Rahs!" may be.

Yours for Lehigh,

A. PARKER-SMITH.

The Black Horse of the Sea Turns to I-R Diesels

The Merritt-Chapman & Scott Corporation have ordered an I-R 600-hp. solid-injection Diesel engine for the conversion of their steam salvage vessel "Commissioner." Eads Johnson, M. E., Inc., are the naval architects in charge of the conversion work. The work will probably be done at the company's Staten Island yards.

For over 70 years, ships flying the "Black Horse" flag (the emblem of Merritt-Chapman & Scott) have plied the coastal waters

of this country and many foreign ports, doing a job of salvage that has made history.

Since the introduction of the Diesel in this country, Ingersoll-Rand Company has been building marine Diesel engines. For years these engines have enjoyed an enviable reputation for low operating cost, low maintenance cost, and outstanding dependability. It is fitting, therefore, that they should now become associated with a service where dependability is the watchword.

JULY, 1930

Alumni Day; for Him Who Reads while Running

ALMOST everyone agreed that Alumni Day, 1930, was a great success. In spite of the general depression in business the attendance this year was just about as large as ever. Just how many alumni were "back" no one knows definitely but about 700 signed the official register. The reunion parade was as long and as colorful as usual and the campus was completely populated for two days by reuniting alumni, members of the Class of '66 (the unattached), their families and friends.

The first formal event of the program, the meeting of the Alumni Council, held in the Alumni Memorial Building, was somewhat late getting started, due to the fact that the officers were held up by a long session of the Board of Directors of the Alumni Association. The Council meeting was attended by some 70 representatives of the classes and clubs and the discussion was animated and productive.

While the Council was in session, the baseball team had a little meeting of its own with Muhlenberg, and came out on the long end of a 20-3 score.

The Annual Alumni Dinner held in the Hotel Bethlehem in the evening attracted about 300. The wives of the alumni dined with the faculty ladies and formed the spectators' gallery for the entertainment after the Alumni Dinner. The program was thoroughly enjoyable as formal speeches were entirely dispensed with and the evening given over to entertainment features which were good enough to hold everyone's attention.

After the dinner the Lehigh Home Club sponsored an informal get-together at the Beethoven Maennerchor where most of the alumni who were in town congregated for a couple of hours of merrymaking.

ALUMNI DAY proper was reasonably cool and clear. Most of the reunion classes had arranged headquarters on or near the campus and bands and costumes began to appear during the morning. Luncheon was served by the University in the Armory and in Drown Hall between 12:00 and 2:00. Both the food and the

service was good—in fact, everyone had been fed by 2:00 o'clock so that the reunion parade formed a little ahead of schedule time and was rarin' to go for ten minutes before the Class of 1910 could be rounded up and enticed away from Charlie Gosztonyi's garage. The parade finally got under way, however, and made an impressive spectacle as it took possession of Taylor Field.

Tickets to the ball game were distributed free to alumni and their families, much to the surprise of old timers who reached for their wallets out of habit.

The formalities on the field were brief and painless, and the ball game with Villa Nova got under way as soon as the reunion classes were seated. The visitors ran up eight runs in their first time at bat so that even the most ardent fan could not get very much excited over the outcome of the game. The final score was 15 to 9 in favor of the visitors. However, the Class of 1905 had installed a loud speaking telephone at the top of the stands which filled in the dull moments of the game by announcements of near-facts about some of the prominent alumni present.

Both cup awards were complete surprises to the recipients. '75, with 4 members, all of whom are Alumni Fund contributors, won the Active Membership Cup with 100%. '90 had 41.8% of its members back and thus beat out '95, with 41.2% attendance, for the Reunion Cup.

THE class banquets were well attended and hilariously enjoyed. As usual, the Class of 1905 broke the long distance record by keeping going until some time between 2:00 and 3:00 A.M. The Class of '95 was a close second.

If anyone failed to enjoy himself thoroughly, he certainly camouflaged his disappointment successfully. As one man said afterwards, "I came to my reunion partly out of a sense of duty, but hereafter, there won't be any 'duty' in it—it's just plain sense to get back here every year, reunion or not."

The 1930 Alumni Gift to Lehigh Exceeds \$100,000

Treasurer Walter R. Okeson Announces, on Alumni Day, That the Alumni Fund This Year Reached the Goal of \$100,000. This Gift to the University Will be Applied to the Cost of the New Library.

LEHIGH ALUMNI have, since Alumni Day, 1929, contributed over \$100,000 to the income of Lehigh University. The total in the Alumni Fund on Alumni Day this year was \$118,609.28, of which \$100,052 can be presented to the University as a gift, free and clear, to be applied to the cost of the new Library.

This announcement, made by Walter R. Okeson, Treasurer of Lehigh University, at the annual meeting of the Alumni Association on June 7, marks the attainment of the goal that was set for the Alumni Fund when it was started five years ago. It is a record without parallel in the history of alumni giving. By contributing this amount each year to the income of the University, Lehigh alumni are in effect giving the University the same benefit as would be returned by a gift of \$2,000,000 to endowment. That this schedule of giving, once established, will be maintained from year to year is a foregone conclusion to all who know the loyalty and traditions of Lehigh men. Indeed, although the goal remains at \$100,000 per year, it may be safely assumed that normal growth in the future will gradually carry the Alumni Fund far above that figure.

The story of how the Alumni Fund went over the top this year was told to the Alumni meeting by "Okey," in the following words:

"After the stock market crash last Fall, we expected that our Alumni Fund would probably fall considerably below the mark of last year. However, more by good luck than good management, we managed to get up to this mark. A great deal of the money came in during the past thirty days, and it then became apparent that we were going to beat last year's record but would not quite reach the goal of \$100,000 which we have been aiming at since we started the Alumni Fund five years ago. We had \$8,000 the first year; \$13,000 the second; \$22,000 the third; and then last year, due to the stimulus given by the building of the Library, we reached \$85,000; and here we were right on the border and it seemed too bad if we couldn't reach our goal. So I went to see one of our loyal alumni, who had already contributed very generously and asked him if he could think of any way in which we could reach \$100,00 and he couldn't think of anything except to give me his check for \$5,000, which he did.

"I believe that as you go around this campus, as you will during the day, and see these wonderful new buildings, you will inevitably think of what you have done in the past eight or ten years here at Lehigh. The beauty of the campus will add to the joy you take in your accomplishment. When we unveiled that tablet to Dr. Drinker on Thursday commemorating his work

with the Military Training Camps, there were some men here who had been associated with the Doctor in this momentous work. Most of them were Harvard men—one was a West Point man, Colonel Bouditch, or 'Pete' Bouditch as I used to call him when he was a star Army end—and they all were seeing our campus for the first time. They could not get done talking of its beauty. I overheard one of them say that, 'I have been everywhere in the United States and have seen practically every college campus and park and I have never seen anything so beautiful as the campus here.' I told him that that beauty bit deep into the consciousness of Lehigh undergraduates and perhaps accounted for the great loyalty of Lehigh alumni.

"Some people say that the new buildings spoil the beauty of the campus. I think we have enhanced that beauty and made the campus the heart of the University. For instance, when I stand out on the center of the campus, this building we are in keeps me from seeing the refuse piled in the backyard of that shack on the corner of New Street and Packer Avenue. I'll admit that the view from Packer Avenue towards the campus used to be very lovely but it certainly was the reverse when you looked from the campus towards Packer Avenue.

"The past ten years show wonderful accomplishments by the alumni of Lehigh. What we can do in the ten years to come, of course, rests entirely with us. We can't expect outsiders to shoulder our responsibility. Let us look for a moment at what you fellows have done within the past decade. Our endowment was about \$2,700,000 when Dr. Richards came here eight years ago. Now, if we count in the money from the Packard estate which will eventually come to us and from which we are now receiving an annual income of \$70,000 a year, we really have close to a \$7,000,000 endowment today. The plant valuation has certainly doubled during the same time as we have put almost \$3,000,000 into the plant in these years. Our yearly income and expenditures have increased from about \$500,000 to over \$1,000,000. These things have been done largely through Alumni effort. Even greater things can be done if we keep our shoulders to the wheel.

"Parker-Smith said at the Alumni Council meeting yesterday, 'Sometimes we think, My God, why don't Okey take a rest.' Well, if I don't take a rest but continue to act as a burr under the saddle, just remember it is on account of that dream that we all dreamed some years ago—that we would make Lehigh, absolutely and without question, the outstanding University of its type and class in America. We will never rest until that dream becomes a reality.

THE TOP TEN Classes Having Highest Percentage of Contributors to The Alumni Fund

Class	Number of Members	Number of Contributors		Amount of Gift
1871	1	1	100%	\$ 55.00

President Dodson Projects Plans for Alumni Activity

In accepting the Presidency of the Alumni Association for the coming year, A. C. Dodson, '00, formulated a schedule of objectives, toward the attainment of which the Association's efforts in 1930-31 will be directed. The "planks" in this "platform" are:

1. *To encourage Alumni giving through the Alumni Fund on a strictly free-will basis, without pressure or campaigns.*
2. *To give sympathetic attention to the opinions and requests of the district Lehigh Clubs.*
3. *To influence a higher proportion of sons of Alumni to choose Lehigh as their Alma Mater.*
4. *To increase the active membership of the Alumni Association.*

A. C. DODSON, '00
President of the Alumni Association

IN ACCEPTING the office of President of the Alumni Association of Lehigh University for the coming year, I am conscious both of the honor conferred and the responsibility imposed. It has seemed to me that we should set up a few definite objectives for the Alumni Association, in order that we may have some standard by which to gage the success of our year's work at the end of it.

Lehigh is a splendid, strong University. I believe that many of her sons fail to realize fully her pre-eminence among modern American colleges. Lehigh's alumni body is a splendid, strong group. An unusually large proportion of them have also attained pre-eminence. Their support of their University, both moral and financial, is inspiring, and the continuation of that support, through the Alumni Fund, is a guarantee of Lehigh's future leadership. Those who are giving, are doing it with an open hand and an open heart, not only because of the loyalty which they feel towards their Alma Mater, but also because they realize that they received an education here at far less than its cost and very far less than its real value. There is, I believe, another reason why you give towards an institution of higher education such as Lehigh. You believe in the principles of government under which we live. Occasionally you would like to take the upper branch of Congress over your knee, but generally speaking—year in and year out—Republican or Democratic administration—the form and the policy of the government of the United States is one that suits you and you believe it is best for all of the 120,000,000 people that live within the boundaries of the United

States of America. The more we educate, the more believers in this form of government we will have; hence our great public school systems. Those of you who are fortunate enough to have more income than the average citizen, should be willing to give to institutions of higher learning, the funds that will enable them to educate several hundred thousand men each year, a given proportion of whom will eventually be the leaders, professionally and in business, of the great mass of people of this Country.

Education and Government

Very concrete evidence of such belief was given last week at the dedication of the Fred M. Kirby Hall of Civil Rights at Lafayette. Mr. Kirby is a self-made man whose generosity is equalled only by his wealth. His success is due to the opportunities which this Republic of ours guaranteed to him. He believes so thoroughly in maintaining those opportunities for future generations that he has given a building and endowed a department to teach a continuation of the principles of *sane* popular government. The Tablet in the hallway of the Hall of Civil Rights carries this inscription: "To provide facilities for instruction in the Anglo-Saxon ideals of the true principles of constitutional freedom, including the right of man to own property and do with it as he will. The right to life, liberty, and the pursuit of happiness, and incidentally the right to sell his labor as he chooses, and to enjoy the fruits thereof without molestation, or restraint. The study of the attainment of these rights and the development of these ideals in the history of the human race. To encourage individual initiative and attainment among young men, to assist in the training of leaders for trade, in-

dustry, finance and engineering, as well as for positions of public influence in Church and State, and to combat doctrines which minimize the importance of leadership, and which would restrict the individual from using all his powers to the full. To the Glory of God, the services of his fellowmen, and the perfecting of his own life and liberty."

If I ran a university, I would teach more and more of Kirby's doctrines, and I believe Lehigh can be counted on as doing just that thing and continuing to do it.

Lehigh Clubs Form Point of Contact With the University

It is the aim of this Association to be a point of contact between the individual alumnus, the Lehigh Clubs scattered over the country, and the University authorities in all matters which pertain to the advancement of the University. If you, as an alumnus, have in mind something which you believe will truly benefit Lehigh University, take it up with your branch club, get it to endorse the project, and pass it on to us for our consideration. If you have no branch club, we will be glad to have you address us direct.

To the Lehigh Clubs we say, do not hesitate to take up with us such matters to the end that we may both assist in the program of the University.

Lehigh Sons as Students

Another matter, and one which is very near our hearts, is that Lehigh alumni should send their sons to Lehigh. We know of no quicker way to swell the number of desirable applicants for entrance and to raise the standard of quality of the undergraduates of Lehigh than to have the alumni of Lehigh send their sons to their Alma Mater.

We challenge comparisons; there is no college in the country where a boy can get a better education in Arts, Business or Engineering than he can at Lehigh. Our faculty, our equipment, and our laboratories guarantee that. The large universities have become so huge that unless a boy is a star as an athlete or has great social prestige he is engulfed and has little chance to develop his personality and ability for leadership.

Again the attention of the head of the department at the large colleges is divided among many times the number of boys as at the smaller institutions; the quality of instruction is that much better at the smaller institutions.

The fond American father does not like to interfere too much with his son's choice of a college for fear that the son will be disappointed and blame the father. That is all right if the son's decision is based on a knowledge of the facts and sound reason, otherwise he may regret his immature decision all his life. It is up to the father to see that his son has the facts on which to make a sound decision.

Join the Alumni Association!

There is an important matter which we believe should have the loyal effort of every member of this Association, and that is the *addition of members*. Scarcely 50% of the graduates of the University are members of this Association. We are going to do our best to raise that percentage this year. May we count on your help? When you meet a Lehigh man ask him whether he is a member of this Association, and if he isn't, get him to join and tell us how to get in touch with him.

I want to make a plea for your sympathetic appreciation of the difficulties of college management as you judge it from afar. The administration of a college is beset with just as many difficulties as you meet in your daily pursuit of bread and butter. The faculty members don't want to flunk boys out just for the joy of doing so, they are generally turning themselves inside out just to keep them from flunking. The President of a University is usually a football roter, as ours is, but he sees at first hand the bad effects of professionalism and he won't stand for it as you would not if you were in his place—so every chance you get give the administration the benefit of the doubt. Give them a hand instead of a foot!

More and more there is room for improvement in human relations in America; relations in business, in employment, in professional life. Here on South Mountain, is an institution that is endeavoring to turn out men who will gradually improve those relations. We are partners in the effort. A little of our time and a little of our money each year, and we help in this effort of practical idealism, *education*, the greatest power for good in the world, next to Christianity.

Wm. Wirt Mills, '87; Caspar W. Haines, '74; W. C. Dickerman, '96; R. P. Hutchinson, '04; Dr. H. S. Drinker, '71; Mrs. Richards; E. G. Grace, '99; Aubrey Weymouth, '94

Alumni Association Directors Meet

Minutes of Meeting Held June 6, 1930, in Bethlehem Club

MEETING called to order at 1:15 P. M. Present, Messrs. H. D. Wilson, '01; Aubrey Weymouth, '94; Cadwallader Evans, '01; A. R. Glancy, '03; E. F. Johnson, '07; R. S. Taylor, '95; J. L. Beaver, '04; A. C. Dodson, '00; C. S. Kenney, '10; A. V. Bodine, '15; W. R. Okeson, '95, and A. E. Buchanan, Jr., '18. President A. R. Glancy presided.

The minutes of the last meeting, held Nov. 22, 1929, were approved as published in the December, 1929, issue of the LEHIGH ALUMNI BULLETIN.

Under the head of unfinished business the Secretary reported that the memorial tablets to P. A. Lambert, '83, and H. H. Scovil, '00, were completed, installed and ready for unveiling.

Further consideration was given to the invitation of the American Legion Building in Paris to erect a Lehigh tablet therein. Final action was deferred and the Secretary was instructed to consult Lehigh men who have seen the building and get their opinion on the project.

Secretary reported healthy activity on the part of Lehigh Clubs. Most of them co-operated very effectively with Dean McConn in interesting prospective students in their vicinities.

Secretary reported that the dormitory project pamphlet had brought no promising reaction to date.

Under the head of new business, consideration was given to Winter Homecoming. In view of the poor attendance last Feb. 22, the advisability of discontinuing the event was considered. Moved by Evans, seconded by Wilson that Homecoming be continued but that Secretary make changes in date, program and arrangements at his own discretion. Carried.

Lack of interest in the Public Speaking Contest for undergraduates, sponsored by the Alumni Association, was discussed. Committee of Taylor, Evans

and Buchanan appointed to discuss question with President Richards with view toward having conduct of contest so modified as to promote real interest and competition.

D. M. Petty, '09, was appointed to succeed himself as an alumni member of the Board of Control of Athletics.

On motion by Weymouth, seconded by Bodine, the Board authorized the Treasurer to turn over the year's proceeds from the Alumni Fund to the University to be applied on the cost of the new Library.

On motion by Taylor, seconded by Evans, the Board authorized the appropriation of sufficient money from the class treasuries (in the Alumni Fund) to cover the BULLETIN guarantee of the classes which have run a deficit this year.

As both '71 and '75 had 100 per cent membership in the Alumni Association for the year, it was moved by Bodine, seconded by Wilson that the active membership cup be awarded to the class of 1875. Carried.

Discussion of ways and means of increasing active participation in work of the Alumni Association. Moved by Evans, seconded by Taylor that more younger graduates (15 years out of college, or less) be added to Board of Directors. Carried.

Secretary reported efforts of Senior Class to collect Alumni dues from all its members before graduation.

A. C. Dodson presented a memorandum covering various Association and University problems. After discussion and revision, the recommendations of the Board were given the Alumni Trustees for presentation to the Board of Trustees of the University.

Adjournment, 3:30 P. M.

Respectfully submitted,

A. E. BUCHANAN, JR.
Executive Secretary.

Tablet Memorializing Dr. Drinker's Services Unveiled

Alumni of Lehigh Join with Dr. Drinker's Associates in the Military Training Camps Association to Commemorate the Contribution of Our President-Emeritus to the National Preparedness

IN RECOGNITION of the services of Dr. Henry S. Drinker, President Emeritus of Lehigh University, a handsome bronze tablet, 3 by 5 feet, designed by Laura G. Fraser, was unveiled with appropriate exercises in the Lehigh Alumni Memorial Building on June 5, 1930. This tribute to our honored President Emeritus is the joint gift of the Alumni of Lehigh and the associates of Dr. Drinker in the Military Training Camps Association. The inscription was written by President Hibben, of Princeton.

The unveiling exercises were attended by a distinguished group of New York business men who were associated with Dr. Drinker in the early days of the Citizens Training Camps, by the Lehigh faculty and many of Dr. Drinker's Bethlehem friends. Dr. N. M. Emery, Vice-President, was chairman of the exercises. Other speakers were W. R. Okeson, Treasurer of the University, Franklin Baker, '95, Chairman of the Alumni Memorial Building Committee, Greenville Clark, of New York, Major J. W. Lang, Lehigh's first Professor of Military Science and Tactics; Col. M. H. Thomlinson, present incumbent of that post, and President Charles Russ Richards. Dr. Drinker also spoke briefly in acknowledgment.

Tracing Dr. Drinker's connection with the Training Camps, Dr. Emery told of the original idea of General Leonard Wood for the establishment of a summer camp at Gettysburg for college men and the enthusiasm with which Dr. Drinker fell in with the experiment in 1913. Later Dr. Drinker became secretary of the advisory committee of university presidents, formed to aid the General Staff with advice from an educational standpoint and his work in this capacity was praised by General Wood as "simply invaluable."

"It is probably not too much to say," continued Dr. Emery, "that the officers' training camps developed during the War were a direct outgrowth of the small beginning made in the summer of 1913. In this development it is generally recognized by those who know that it is impossible to exaggerate the service rendered by the then President of Lehigh University."

WALTER R. OKESON paid tribute to Dr. Drinker as an alumnus in the following words:

"We have always recognized that one other tablet should be in this room—a tablet to the greatest of Lehigh men—

Dr. Drinker. I say 'the greatest of Lehigh men' advisedly. In 1866 Lehigh was founded. A year later, Dr. Drinker entered Lehigh as an undergraduate, so that his life is contemporary with the life of the University. After he was graduated, he was interested in creating the Alumni Association, which through the many years that followed, did so much to promote the progress of the University. He was Alumnus Trustee, member of the Board of Trustees, counsel for the University, President of the University. All of the 63 years that he has been identified with the University, since he entered as an undergraduate, he has been constantly in the service of the college.

"Lehigh men can never repay the debt they owe to Dr. Drinker. There are no words in which it is possible for us to tell of his feelings. But we all recognize his services and we all love him. It is a great pleasure to me to be allowed to speak today of the feelings of the ten thousand Lehigh Alumni scattered over the world."

FRANKLIN BAKER, '95, spoke, in part, as follows:

"Today we must here to manifest our reverence for and to pay our tribute to one of Lehigh's greatest leaders—a man, who by his wisdom and indefatigable courage, led our Alma Mater through years of distress and difficulties, and who by his foresight laid the foundation for the present. As our most outstanding alumnus, Dr. Drinker, gave character to our Alma Mater. He voiced the sentiment of his fellow Alumni, and he in turn expressed to them his ambitions. He was always one of us—sympathetic to our desires and devoted to his trust. He led, we are glad to follow."

"Dr. Drinker typifies the Lehigh Spirit, and because of his valiant deeds it is fitting that this Tablet should be displayed here—an honor and glory to our Alma Mater—an inspiration for generations to come."

GRENVILLE CLARK, representing the business and professional men who were interested, with Dr. Drinker, in the early days of the training camps said:

"We haven't come here, Dr. Drinker, to speak of your services but to renew our personal relation with you, and we consider it a great privilege—something we will always remember—that we have been taken out of our busy life in the metropolis and have the unique oppor-

tunity—one that won't happen in a thousand years—to work with you. We come to pay our respects and affections and it is for that personal purpose that we have come here today."

MAJOR LANG, in addition to voicing an affectionate tribute to Dr. and Mrs. Drinker, read the following letter from the Secretary of War:

It gives me great pleasure to have this opportunity to express the War Department's appreciation of Doctor Henry Sturgis Drinker. Affiliated with the Military Training Camps movement from its very inception, he played an important part in directing and moulding America's effort in the World War. So long as the Citizens Military Training Camps endure as part of our system of national defense, he will be honored as a continuing contributor to the military policy of the United States. For his fruitful activities and inspiring leadership on behalf of National Defense before, during and after the War, Dr. Drinker deserves well of his country. I am proud to join you in tribute to him.

(Signed) PATRICK J. HURLEY,
Secretary of War.

The tablet was unveiled by Col. Thomlinson, and formally presented to Lehigh University, whereupon President Richards accepted it, pointing out that Lehigh is still doing its part for preparedness by maintaining the R. O. T. C., thus carrying on the good work started by Dr. Drinker.

Deeply moved by the many evidences of esteem and affection showered upon him, Dr. Drinker spoke briefly in appreciation as follows:

"Mr. Clark and my friends of the Training Camp Association who are here from New York, President Richards, Dr. Emery, Mr. Okeson, Mr. Baker, Colonel Lang, my friends and past associates in the Faculty of Lehigh University, Bishop Hamilton and my old friends of Bethlehem, North and South:

I appreciate and feel more deeply than

I can put into words, your placing here this memorial of such service as I was privileged to render in acting under and with General Leonard Wood in establishing and supporting the Students Military Training Camps in 1913. Naturally, it is a source of immense pride and satisfaction to those who were privileged to aid General Wood in the establishment of the camps, to feel that they served in a project that has proved to be so practical and serviceable to our country. Our countrymen are full of love and devotion to our country, but the opportunity to render direct patriotic service does not come to everyone, and the formation of the Training Camps gave our students, and our professional and business men who attended them an opportunity for patriotic service greatly appreciated and valued by them.

Of all measures for the promotion and maintenance of peace I know of none more potent than that voiced by Washington when he said that 'Preparedness for war is one of the most effectual means of preserving peace.' No better or more valuable lesson than this can be instilled by our Universities and Colleges into the youth under their care. As an alumnus of Lehigh, I am highly proud that my Alma Mater should, from the first announcement of General Wood's plan in May, 1913, have been among the leaders in the movement, and let us remember that in the first year of the Students' Training Camps, which have culminated in the great Citizens Military Training Camps of today, with Charles B. Pike at their head, our sister institutions to whom Dr. Emery and Colonel Clark referred, actively co-operated in forming an Advisory Committee of University and College Presidents to forward the movement.

I cannot talk today as I would like to do of all this which has been so dear to me, for your kindness and the overpowering sentiment of this occasion overcome me and I can only express to you all my deep gratitude for what has been said here by my friends and my hearty appreciation of your friendship that is evidenced by your presence here.

Memorial Tablets to P. A. Lambert, '83, and H. H. Scovil, '00, Unveiled Before Alumni Council

JUST before the meeting of the Alumni Council was called to order on June 6, the representatives present gathered in the hallway of the Alumni Memorial Building to participate in the simple exercises in connection with the unveiling of two handsome bronze tablets, one in memory of Professor P. A. Lambert, '83, and the other for H. H. Scovil, '00. Walter R. Okeson presided over the exercises, introducing first A. E. Forstall, '83, who voiced the following tribute to Prof. Lambert.

"For those of us who came into contact with Lambert as fellow student, fellow member of the faculty, teacher or fellow alumnus no tablet is required to keep alive in our hearts pleasant and vivid memories of him. We knew and remember him as a good friend, as a teacher with a remarkable ability to impart his knowledge to students.

"We recall his solicitude for the mental welfare of all students in the University, manifested by the establishment and the successful operation during sixteen years of the Conference Department which saved many from the premature severing of their scholastic ties, and enabled them to carry on during the remainder of the college course and attain ultimately the longed-for diploma.

"And above all we of the smaller number who were privileged to know him more intimately have enduring memories of his strong and loving friendship.

"But we are passing gradually from the scene, to be replaced by generations who knew him not in life and therefore this tablet has been placed here in tribute to his memory and to the end that those who follow may ponder the inscription and learn somewhat of the man:

1862 PRESTON ALBERT LAMBERT 1925

A life long servant of Lehigh, inspired teacher of mathematics for forty years, Alumni Officer for more than two decades, to him belongs the honor of conceiving the idea of this Alumni Memorial Building.

"... Their story is not graven on stone over their native earth, but lives on far away without visible symbol woven into the stuff of other men's lives."

Introducing Aubrey Weymouth, '94, who unveiled the memorial to Scovil, Okey paid tribute to the former president of the Alumni Association who brought about the incorporation of the organization, in 1917. Weymouth's address follows:

"Just four years ago when the news of the sudden death of Scovil came to us, it was a great shock to all Lehigh men who knew him and had come to love him. Today, when we meet to memorialize his services to the Alumni Association, the thought of his radiant personality makes it seem rather inappropriate to speak of him in the spirit of sadness. Rather, I would speak joyously of him as the incurable optimist where Lehigh matters were concerned. He was an apostle of the joy of living. Scovil had a great capacity for friendship but friendships were for him simply an instrument by which he could make his wonderful dreams about Lehigh come true.

"He considered that the greatest need of Lehigh was the reorganization of the Alumni Association with Okeson as a full-time secretary. When the idea was sold, I believe he considered it as the crowning achievement of his life. This building is one of the achievements to which he gave his time. This building is more than just a building—a memorial to Lehigh men—it is Lehigh's first noble tradition. It inspired the increased endowment fund and brought to Dr. Richards a realization of the beginning of his hopes for a finer and better Lehigh. I have no doubt that it provided the impulse for Packard for his gift; I believe it is directly responsible for the reconstruction of the Library.

"Upon this tablet this inscription has been placed:

1876 HENRY HARGER SCOVIL 1926

During his term as president of the Alumni Association, he caused its incorporation and created the instrument through which the Alumni support of Lehigh has been made a determining factor in her progress.

"This tablet represents something more than just the record of the services of an alumnus to his Alma Mater. It seems to me that it is an inspiration to the living alumnus to carry on the work that has been started and to the future alumnus let us hope that it will typify the spirit of Lehigh. And so today, on just such a day as he would have loved to wander through his beloved campus, strengthening his imagination in its atmosphere—with great pleasure we dedicate this tablet to the honor of Scovil and to the glory of Lehigh."

In accepting the tablets for Lehigh University, President Richards said:

"It gives me much satisfaction to accept, in behalf of Lehigh University, these tablets that are commemorative of the effective work for their Alma Mater of H. H. Scovil and P. A. Lambert. While the events which these tablets record antedate my connection with the University, I am fully appreciative of their importance to the institution.

"These tablets commemorate in an enduring fashion the activities of two men who have left an indelible impress on the institution that reared them."

Major-General Wood, Dr. Drinkwater and the officers
in charge of the Gettysburg Camp, 1913.

Minutes of the Meeting of the Lehigh Alumni Council Held in Alumni Memorial Building, Friday, June 6, 1930

THE meeting was called to order at 4 P. M. with President A. R. Glancy in the chair.

The minutes of the previous meeting, held February 22, 1928, were approved as published in the March, 1928, issue of the ALUMNI BULLETIN.

The report of the Secretary and that of the Treasurer were submitted and accepted. These reports are printed elsewhere in this issue.

Walter R. Okeson, Treasurer of the University, was called upon to report on the Alumni Fund. He announced that the total paid in since last Alumni Day slightly exceeded \$100,000.

CONSIDERATION was given to ways of stimulating interest in the work of the Alumni Association. Because of the comparatively large classes that have been graduated during the past decade, the roll of the Alumni Association is mounting rapidly. The total number of men who support the work of the Association remains relatively stationary. The Secretary had curves showing graphically the rapid increase in the proportion of inactive members.

Mercer B. Tate, '20, expressed the opinion that personal work by class committees was the best means of bringing in delinquents. He urged the appointment of a committee of five or ten men in each class to solicit the support of all the members.

L. D. Rights, '93, advised simplification in the method of billing members for dues, etc. He expressed the opinion that the bill form is too complicated and involves too much bookkeeping, resulting in confusion in the mind of the recipient. He urged that the BULLETIN be sent to every alumnus regardless of whether he subscribes or not, adding that if the cost of procedure were prohibitive, the BULLETIN should be made less pretentious and cheaper.

Walton Forstall, '91, suggested that the local clubs could do a great deal in interesting Alumni who do not respond to the efforts of their class officers by visiting them personally and trying to get them to become active in the affairs of the Association.

W. H. Lesser, '05, reported his conviction that personal efforts by the class agents was the most effective way of arousing interest.

J. H. Pennington, '97, recalled that the system of establishing class committees to round up delinquents had been tried before and discontinued. He pointed out that it would be useless to revive the idea unless some permanent machinery was instituted to keep the plan in operation.

J. O. Leibig, '14, expressed the belief that the Alumni Association should be "sold" to its prospective members while they are still undergraduates. He urged steps to educate the undergraduates to think about Lehigh from the point of

view of alumni.

A. Parker-Smith, '84, remarked that he considered the showing of Lehigh's alumni entirely satisfactory. "After all," he said, "all you can do is to keep drumming away for you never know when a response will come from the least expected quarter." He pointed out that new approaches always freshened the appeal and suggested that it might be well to send out an occasional questionnaire to the alumni to obtain their views and opinions about the Alumni Association and their ideas about its activities.

Cadwallader Evans, '01, suggested that the Senior Class should be formally inducted into the Alumni Association with some ceremony in order to make them feel a part of the organization.

R. S. Taylor, Jr., '25, suggested that the Alumni Association should devote some effort to the education of recent graduates. He also brought out the point that the recent graduates could be best reached by correspondence from members of their own curriculum.

CALEB S. KENNEY, '10, raised the point that, in general, the sons of Lehigh graduates should be considered as a preferred type of prospective student. He said that he believed the greater proportion of these young men could be influenced to choose Lehigh as their Alma Mater if their fathers could be brought back to the campus frequently to observe the progress that Lehigh is making. He also suggested that contact should be established with certain preparatory schools which are logical feeders. He suggested, too, that the sons of Alumni who are in college should be shown some attention by the Alumni Association and made to feel that they were especially welcome as sons of graduates.

L. D. Rights remarked that if a man would bring his son for a visit to the campus, it would do more to sell the boy on Lehigh than anything else.

Walton Forstall, '91, remarked that he did not believe in attempting to influence a son in the selection of a college too strongly but he said his experience had been that by maintaining his own interest in Lehigh and visiting the campus frequently all of his boys had decided that there was only one college for them.

George W. Beggs, '95, pointed out that teachers in high and preparatory schools could exert a strong influence in helping the students to select a college.

A. T. Wilson, '21, related instances to illustrate his point that a little personal attention goes a long way in making a boy enthusiastic about a college. He urged that provision be made for receiving prospective students cordially and giving them the little individual attentions that mean so much to a young man when he is just beginning his college career.

A. P. Spooner, '11, recommended that pictures of the Lehigh campus be distributed to preparatory schools and interested individuals.

THE question of correlating the activities of the Lehigh Clubs and directing their efforts along the most productive lines was next brought up for discussion. William Wirt Mills, '87, President of the Lehigh Club of New York, recommended that motion picture films of Lehigh be kept up to date and be made available for showing at club meetings. He also urged that the publicity value of athletic events away from home be taken into account by the University Administration. He felt that the distinction between major and minor sports should be eliminated; that Freshman teams should be maintained in every sport and that Lehigh athletes be permitted to compete in important meets in nearby cities.

C. F. Lincoln, '11, President of the Philadelphia Lehigh Club, spoke of the interest aroused by the award of the football trophy to be competed for by the schools of the Inter-Academic League in Philadelphia. He reported the plan of the Philadelphia Lehigh Club of subscribing to the *Brown and White* and the ALUMNI BULLETIN for all the leading high and preparatory schools in the district.

G. H. Bingham, '10, secretary of the Northeastern Pennsylvania Lehigh Club, emphasized the importance of a centralized coordination in guiding the energies of the district clubs.

On motion, the meeting adjourned sine die.

Respectfully submitted,

A. E. BUCHANAN, JR.,
Executive Secretary.

J. H. Evans, '75, with the active membership cup won by '75 with 100%

Lehigh Confers Honorary Degrees on Two Alumni Distinguished in Engineering and Science

Thaddeus Merriman, loyal son of Lehigh, distinguished in service with the U. S. Nicaragua Canal Commission, with the U. S. Isthmian Canal Commission and with the Board of Water Supply of New York City, now chief engineer of the latter, contributor to the science and practice of hydraulics and water supply engineering as notably exemplified in the design and construction of the Catskill Water Supply System.

Nicholas Hunter Heck, loyal son of Lehigh, recognized for distinguished service with the U. S. Coast and Geodetic Survey as Commander of the schooner "Matchless" and of the steamer "Discovery," and as Chief of the Division of Terrestrial Magnetism and Seismology, contributor to the science of deep sea sounding, the compensation of the magnetic compass and the study of earthquakes.

TWO OF Lehigh's sons who have distinguished themselves in their respective fields of engineering and science were honored by their Alma Mater at the sixty-second commencement exercises when they were awarded honorary degrees.

Thaddeus Merriman, '97, son of Mansfield Merriman who was Professor of Civil Engineering at Lehigh for almost thirty years, received the degree of Doctor of Engineering. He is recognized as one of America's foremost authorities on municipal water supply.

On Commander Nicholas H. Heck, '03, Chief of the Division of Terrestrial Magnetism and Seismology of the United States Coast and Geodetic Survey, was conferred the degree of Doctor of Science. Commander Heck is considered an outstanding authority on seismology and terrestrial magnetism.

In presenting Mr. Merriman to President Richards for the degree, Prof. Ralph J. Fogg, head of the Department of Civil Engineering, gave the following outline of his career and accomplishments:

"Thaddeus Merriman, whose noteworthy accomplishments and engineering skill have gained for him the distinction of being one of America's chief authorities on municipal water supply, is presented for the honorary degree of Doctor of Engineering.

"Graduating from Lehigh in 1897 with the degree of Civil Engineer, Mr. Merriman received his early experience on geological reconnaissance work in Pennsylvania and surveys for the United States, Nicaragua, and Isthmian Canal Commissions.

"Since 1902 he has been in continuous service in the water works field, starting with the Jersey City Water Supply Company as Assistant Engineer on the Boonton Dam, and later as Division Engineer with the East Jersey, Passaic, and Acquackanonk Water Companies. He has served on the engineering staff of the Board of Water Supply of the City of New York for twenty-five years, receiving successive promotions to his present responsibility as Chief Engineer, which position he has filled since 1922. Under his direction was prepared the plan for a new water supply from the upper tributaries

of the Delaware River; the estimated cost of this project, including the delivery of water into New York City, being over three hundred million dollars.

"In 1918 Mr. Merriman was called to Greece for the purpose of investigating the proposed water supply for the city of Athens. Last Fall he was signally honored by being made Chairman of the Board of Engineering Review of the Metropolitan Water District of Southern California.

"It is interesting to recall that on Founder's Day, seventeen years ago, the honorary degree of Doctor of Laws was conferred on Mr. Merriman's father, Mansfield Merriman, Lehigh's great writer and teacher of engineering.

COMMANDER HECK has become recognized the world over as an authority in his chosen fields of terrestrial magnetism and seismology. He has been a prominent figure in several international scientific meetings and has carried on explorations and surveys in many parts of the world. He is the author of many scientific papers and articles on earthquakes, seismology, oceanography and kindred subjects. During the World War he was engaged in important work in the detection and location of submarines and saw active service in the war zone.

Commander Heck was presented to President Richards for the degree of Doctor of Science by Prof. C. C. Bidwell, head of the Department of Physics, with the following brief sketch of his achievements:

"Commander Heck is a graduate of Lehigh University of the Class of 1903. He has achieved high distinction in his chosen field and is a recognized authority on seismology and terrestrial magnetism. He is the author of many scientific papers and publications of the Coast and Geodetic Survey. Among these are the following titles: 'Radio Acoustic Method of Position Finding in Hydrographic Surveys,' 'Earthquake History of the United States,' 'Report on Network of Earthquake Observations of Countries bordering the Pacific,' 'Values of the Velocity of Sound for Echo Soundings in the Pacific Ocean,' 'Oceanography and Seismology in the Pacific Region,' etc. It is a privilege to present to you Commander Heck for this degree."

Alumni Meeting Featured by Encouraging Reports

President Richards Outlines the Academic and Physical Progress of the University During Past Year. Alumni Secretary Reviews Active Year by the Association in Many Directions, Including Splendid Work of Clubs.

THE ANNUAL Meeting of the Alumni Association of Lehigh University was called to order in the auditorium of the James Ward Packard Laboratory at 11:00 A.M., June 7, 1930, by the President, A. R. Glancy, '03.

It was moved, seconded and carried that the Secretary take the roll from the registration cards in the Alumni Office.

The reading of the minutes of the last meeting was dispensed with and they were approved as published in the July, 1929, issue of the LEHIGH ALUMNI BULLETIN.

The following tellers were appointed to count the ballots for officers of the Alumni Association for the year 1930-31: A. C. Cusick, '23; R. A. Harrier, '27; J. S. Long, '13.

President Glancy then introduced Dr. Charles Russ Richards, President of the University, who reported as follows upon the progress of the University during the past year:

Remarks of President Richards

WHILE I always find it difficult to select from the wealth of material concerning the University that which will give a fairly adequate picture of the progress of the institution, there is no doubt that when the history of Lehigh is written, the academic year 1929-30 will be marked in red letters because of three notable events, including the occupancy of the James Ward Packard Laboratory of Electrical and Mechanical Engineering, the dedication and occupancy of the Library, and the defeat after many years of the Lafayette football team. Possibly we might differ as to the order of importance of these events. I will leave the arrangement to your own inclination.

While we have used the Packard Building during the past year with much satisfaction, there still remain many

things to be done in the installation of equipment before we can consider that the plant needed for instruction and research is entirely complete. It is probable that it will never be complete, for, with the developments in pure and applied science, the equipment will need to be expanded from time to time to keep it in harmony with the latest developments.

It was felt to be inadvisable to dedicate the new Packard Laboratory before the equipment that we now possess, or expect to be able to purchase in the near future, has been installed for use. We have decided, therefore, to defer the dedication until the 15th, 16th and 17th of October. The exercises will begin with the formal dedication of the building on the 15th. The exercises of that day will be succeeded by two days of conferences devoted to the relation between the technical schools and the industries and the future of American industry. At the formal dedication on the 15th, Mr. Schwab will give the principal address. We have nearly completed the program for the whole celebration. The list of speakers is an impressive one. It may interest you to know that it includes four distinguished Lehigh alumni: Mr. Merrick, '92, President of the Westinghouse Company; Mr. William Butterworth, '89, President of Deere and Company and of the United States Chamber of Commerce; Mr. Glancy, '03, at present President of the Alumni Association and President of the Oakland Motor Car Company; and Mr. Baldwin, '96, President of the Missouri Pacific Railroad.

During the past year \$160,000 was spent in altering and reconditioning Packer Hall, Williams Hall, the Physics Building, the Chemistry Building and the Wilbur Engineering Laboratory. Most of the alterations were rendered necessary as a result of the various shifts of departments made possible by the construction of the new Packard Laboratory. These old buildings have been put in excellent condition and they

will, I trust, continue to serve the University's needs for many years. The task of reconditioning these buildings is not entirely completed. At a comparatively early date we shall be compelled to spend additional money on them which will not show. Thus, for instance, in the Chemical Laboratory the old plumbing needs to be completely renewed at a cost of \$15,000 to \$20,000. Furthermore, the existing heating equipment in most of the old buildings needs to be remodeled or changed in the interests of more economical and satisfactory operation.

The present summer will be a less active one than last year. The principal tasks ahead of us include the relaying of certain roadways on the campus and the repair of others, and the relaying of certain walks which are no longer satisfactory. We shall also make extensive alterations to the interior of the Cox Mining Laboratory. Much of the equipment in this building is obsolete and needs to be replaced and it is desirable that room be provided for the development of an adequate fuel and petroleum laboratory. The plans for remodeling which have been developed will almost double the floor space available for laboratory purposes. It is expected that a considerable amount of new apparatus will be installed, thus very thoroughly modernizing both the laboratories and their equipment.

YOU have all received the little pamphlet describing the proposed dormitory project for the University. I hope you have read it and that you are, therefore, familiar with this problem, for it is the most important one that now confronts the institution. With the growth of Bethlehem and the development of its great industries, it is probable that students find more difficulty to perfect suitable living arrangements than was the case twenty-five or thirty years ago. The pamphlet is not the forerunner of a campaign for funds; all that we are asking

The 1915 "bakers" were led by a musical bakery truck which made as much noise as two bands.

The Class of '89 reviewed the parade

is that you lend your help, if it is possible, in finding a man with two and a half or three million dollars that he is willing to invest for the benefit of Lehigh students, many of whom will be our future leaders in industry and business. It seems to me that it will be humiliating if we fail to find a man who will do for Lehigh what Harkness, for instance, has done for Yale.

The student enrollment during the last year is almost exactly the same as that of the previous year. Our Freshman class was somewhat larger, and I have been assured that the incoming students were an unusually promising group of youngsters.

In previous years I have mentioned the problems of recruiting students. This year we have made greater efforts than formerly to interest prospective students in the things that Lehigh has to offer. In this connection we have been tremendously aided by the various organized Lehigh clubs, each of which, as I remember it, has held a dinner to which there was invited a number of boys who expected to go to college. The Alumni Secretary, Mr. Buchanan, and Dean McConn were thus able to present to these prospective students an excellent picture of the institution. I am inclined to think that each year the clubs can render effective assistance in our efforts to increase the number of men who are attracted by Lehigh's offerings.

In addition to the personal work that the Dean and the Secretary of the Alumni Association have given to recruiting the Bureau of Publicity has issued an admirable piece of advertising literature addressed to prospective students. This pamphlet is well conceived and it sets forth in an attractive fashion the numerous advantages that are afforded by this institution.

I confess we were somewhat concerned last November over the possibility that the break in the stock market might have a very adverse effect on our enrollment. So far as I know, however, only a few students—three or four—were forced to withdraw. There is a possibility, however, that the existing business depression may affect adversely the enrollment next fall. It is for this reason that we have been making extraordinary efforts to combat the danger. Each of you can, I am sure, assist us by presenting Lehigh's claims to any of your friends whose sons are about to enter college. As I have stated on many previous occasions, it is our desire that as quickly as possible we reach a position

25 Year Reunion of 1905

where each year many more boys than we can accommodate will seek admission. When that time has arrived we can feel that our budgetable income is more effectively stabilized and that certain of our budgetary problems are thereby solved. Thus, for instance, a variation of fifty students means a variation of \$20,000 in our income. So far we have been unusually fortunate in our finances, since during the past seven years there has been no actual deficit.

EARLY in May Lehigh University was host to the Middle Atlantic Section of the Society for the Promotion of Engineering Education. Six representatives of the personnel departments of leading industries such as the American Telephone and Telegraph Company, the Westinghouse Company, General Electric, etc., discussed the problem of recruiting technical graduates by the industries. It will interest you to know that nearly every man on the program emphasized the fact that at present the number of graduates in mechanical and electrical engineering is insufficient to meet the reasonable demands of the industries. Such statements, coming at a time when there is a serious problem of unemployment, are illuminating. It would seem to be clear that there is never likely to be a serious problem in the employment of man capable of doing large things. I have known some older college men who

felt that there are too many technically trained men and that the industries exploit the men who are just graduating, keeping them on for a few years and then casting them off. I doubt very much whether this is true, at least in the larger industries which are highly organized and which require men of outstanding ability to carry on their work effectively. Thus, for instance, the American Telephone and Telegraph Company requires about eighteen hundred new college men annually, half of whom must be technically trained; they probably let out, after a brief period, those men who fail to show real promise. I know, however, that many young men have gone up rapidly to highly important positions, so I feel that where a man is endowed with adequate brains and is devoted to his duty these qualities will receive prompt recognition by the large industrial corporations.

Last year I told you something of the interesting educational experiment that is being conducted in Pennsylvania by the Carnegie Foundation for the Advancement of Teaching, the State Department of Education and the several colleges. You will recall that I described the results of the comprehensive examination given in the Spring of 1928 to all college Seniors in the State. You may remember the very creditable showing that our Lehigh Seniors made in this test. Simultaneously with the test of college Seniors some 25,000 high school Seniors in the State were examined in a manner similar to the one employed in the colleges. A thoroughgoing comprehensive examination, more elementary than the college examination, was given to these high school Seniors. A few weeks ago a comparative examination requiring three days of six or seven hours a day, was given to all Sophomores in the State, thus rendering it possible to compare the knowledge accumulated during two years of college work with that which was possessed by the high school students two years ago. I am told that our own students took this examination cheerfully and enthusiastically.

This morning Professor Hughes presented me with a brief resumé of the results of these examinations, with some comparisons which enable us to determine where the Lehigh men stand in the State at large. He finds that the mean score of our Arts students was 1125, of

The Lehigh rifle team with the Hearst trophy, symbolic of the Eastern Collegiate championship

our Engineers 1056 and of our Business students 940. In the entire State 4500 Sophomores took the test. Professor Hughes states that in the entire state we cannot compare the total scores but only those scores made in so-called "common subjects". For these the mean score in the State was 560; for the Lehigh engineers it was 660, for the Arts students 690, and for the Business students 580. Put in another way, the average engineer at Lehigh, that is the one who surpassed 50% of his fellow students, surpassed 77% of the Sophomores in the State at large. The Arts student who surpassed 50% of his fellow Sophomores, surpassed nearly 80% of the Sophomores in the State at large. The average Business Sophomore surpassed somewhat the average performance for the State at large. In this connection Professor Hughes points out that our average Freshman, as determined by the psychological examinations given in many colleges in the United States and Canada, that is that Freshman who surpassed 50% of our Lehigh Freshmen, surpassed 66% of the Freshmen in the country at large. It would seem, therefore, that we are getting students of generally satisfactory ability as compared with students received by many other institutions.

Both in the scholastic and extra-curricular activities of the students at Lehigh, the past year has been a very satisfactory one. Our athletic teams have made a creditable record; our publications have been good; the reorganization of the work in debating has shown this work to be profitable; the Department of Military Science and Tactics has again received the highest rating that the War Department gives; for the second successive year the rifle team has won the Eastern Intercollegiate Championship and it was within one point of winning the National Championship.

EACH year I have discussed briefly the problem of our annual budget. The Treasurer and the Comptroller have estimated that for the fiscal year beginning September 1, 1930, we may safely estimate a somewhat larger income than for the current fiscal year due to an anticipated increase in income from student fees, to a larger income from the Packard Estate than we have previously estimated, and various items of increased income from other sources. In making up the budget for the next fiscal year I have felt it safe to apply a considerable portion of the estimated increase in income to the salaries of the present mem-

bers of the Faculty. Thus, we propose to spend about \$20,000 in this manner. We have found that a few new positions needed to be created, but the major part of the increase in the salary budget has been applied as indicated. While \$20,000 seems to be a large sum, yet that amount applied to an increase in salaries does not greatly increase the average salaries paid to the different grades of instructors. To bring the salary budget up to a proper scale that would make it more nearly comparable with the better institutions of the country will require about \$75,000 per year more than we are now able to provide. Our present faculty is an excellent one. That this is true is evidenced by the fact that more and more other institutions are enticing our men away with offers of attractive positions at higher salaries. While we are always glad to have a worthy colleague receive recognition and promotion elsewhere when it is not possible to give him here as rapid advancement as he deserves, it is a bit painful at times to lose men whom we would like very much to keep. We seem to find it increasingly difficult to secure outstanding teachers at the salary scales which now exist.

For the coming academic year the average salary for professors will be approximately \$5000; for associate professors, \$3,463; for assistant professors, \$2961; and for instructors, \$2034. Those of you who are engaged in large business or industrial enterprises are not getting men comparable with many in our faculty for salaries that are at all comparable with those which we are able to pay. We shall probably find it increasingly

difficult to secure the type of men we need in competition with business and industry. It is my desire that as quickly as possible the average salaries of professors be raised to \$5500, of associate professors to \$4000, of assistant professors to \$3500, and of instructors to \$2500. As I have already indicated, to attain these very modest averages will require a salary budget of \$75,000 more than we have been able to set aside for the purpose for the next fiscal year.

In analyzing our salary budget there is some reason for satisfaction, however, if we compare the scale of salaries set up for the next academic year with those which obtained in 1922-23. During this period there has been an increase in professors' salaries of 11.3%, in associate professors' salaries of 25.8%, of assistant professors' salaries of 29.1%, and of instructors' salaries of 28.1%. In considering the present rate of pay for the two subordinate grades, it should be kept in mind that not infrequently members of the Senior Class secure employment upon graduation at salaries comparable with, if not in excess of, the average we pay to instructors. In order that we may augment funds available for salaries, we may find it necessary to increase somewhat the total student enrollment. Furthermore, it is possible that within a few years it will seem essential that there be a further increase in tuition. Our present tuition, \$400 per year, is relatively high. Several colleges have, however, recently increased the tuition charge above that which we now charge.

These, gentlemen, are a few of the things which are interesting us and which I trust may be of some interest to you. It would be necessary to take much more time than is available for a complete presentation of the outstanding events of the past academic year.

President Glancy then called for the report of the Executive Secretary which follows:

Report of the Executive Secretary

THE YEAR just closed has been an extremely active one for the Alumni Association. Each year it seems as though the Alumni Office has handled the maximum limit of work, both the regular routine of the Association activities and a wide variety of special jobs in behalf of or in co-operation with the University Departments, the Lehigh district clubs, etc., but each year the

Presenting gold baseballs to the team that beat Lafayette two out of three

One of the nicest features of the Reunion was having Dr. Drinker present

number of these special jobs seems to increase and somehow the Alumni Office manages to absorb the added load without exceeding the elastic limit.

The most encouraging development of the year is undoubtedly the growth of the Alumni Fund. Last year, we were privileged to announce that the total Alumni contributions to the Alumni Fund was slightly in excess of a hundred thousand dollars. This, however, included the dues payments which support the Alumni Association so that the actual gift to the University was somewhat less than that figure. This year, however, the Alumni of Lehigh are able to present more than a hundred thousand dollars net to the University, thereby reaching for the first time the goal that we set for ourselves when we undertook to pay for the new Library. With equal success the next three years, we shall be able to retire all the outstanding indebtedness on this latest noteworthy addition to the campus.

Incidentally, the dedication of the new Library building on April 25 last was one of the special jobs referred to above, which demanded considerable effort on the part of the Alumni Office staff. Invitations to the ceremonies were extended to every alumnus and to fifteen hundred representatives of other institutions of learning, professional societies, librarians, etc. Souvenir programs were printed for the occasion. A surprisingly large amount of detail preparation is involved in an academic function of this kind but unanimous approval of our many guests and the favorable comment, both by those who were present and in the public press, seems to have justified the effort.

During the year, the Alumni Office co-operated in the preparation, printing and distribution of the pamphlet describing the proposed dormitory project, the next step in Lehigh's building program. To date no one has asked for an

20 Year Reunion of 1910

10 Year Reunion of 1920

option on the privilege of contributing the required three million dollars, but we live in hopes that such an announcement may be the feature of this report on next Alumni Day.

The Alumni Office has continued to extend its contact with the press; and has made constant efforts to distribute the news of athletic events and campus happenings to all the newspapers within a radius of Bethlehem. Our efforts in this direction have not been one hundred percent successful but on the whole, it is definitely demonstrable that Lehigh is getting its fair share of recognition in the daily press. Efforts have been made to improve the appearance and content of the *LEHIGH ALUMNI BULLETIN*, the circulation of which has increased to 6100, the advertising revenue having held its own. In connection with the *BULLETIN*, I want to acknowledge the splendid co-operation of the class correspondents who have served so faithfully during the past year and have added so much of interest to the class news.

There is one feature of the past year's record that is somewhat discouraging, namely, the relatively small increase in the total number of active members of the Alumni Association. In view of the large numbers that have been added to the roll by the graduating classes of the last decade, the relatively slight increase in the number of men paying dues each year seems to indicate a lack of interest on the part of the more recent graduates. Obviously, if the Alumni Association is to continue to exert the same influence in the future progress of Lehigh that it has in the past a more general participation by these younger men is essential. Our problem is not so much that of financing the work of the Alumni Association as it is of convincing every alumnus that the association is his own instrument and the one medium through which he can manifest his interest in and affection for his college.

The Lehigh Clubs have been more active this year than at any time since

our Endowment Campaign in 1923. Nearly all of them have held exceptionally large and successful meetings during the past winter and spring. They have co-operated most effectively with the Dean's efforts to stimulate student enrollment in order that more highly selective methods may be applied in the matriculation of new students. Practically all of the clubs have scheduled meetings especially for the entertainment and enlightenment of young men of college age from their own communities and next year's freshman class will include a large number of promising youngsters who were first interested in Lehigh by the enthusiasm of her alumni. The Alumni Office has also co-operated closely with Dean McConn in these efforts by preparing, publishing and distributing to about 12,000 prospective students, a new illustrated pamphlet. The Alumni Secretary also assumed responsibility for the conduct of Sub-Freshman Day which brought over 300 prospective Lehigh men to the campus on May 3.

We welcome to our ranks today the class of 1930, the largest ever to be graduated from Lehigh, and believe equally outstanding in quality. The Executive Committee of the Class of 1930, after careful consideration of possible plans by which they could make a suit-

able gift to Lehigh, decided to demonstrate their loyalty to the University by a campaign to enroll every member of the class as a paid up member of the Alumni Association before Commencement Day. If they are successful in this unique endeavor, we older fellows will have the inspiration of a one hundred percent active membership record by our baby class, spurring us to greater efforts throughout the coming year. In welcoming this new blood to the Alumni Association we venture to remind them that their careers as Lehigh men are just beginning and that we older men are counting on their fresh vigor to replace that of our members who have gone to their last Reunion.

In accordance with our usual custom, we will stand during the reading of the names of those who have died during the year:

Raymundo Floresta DeMiranda, '72; Henry D'Arcy Scudder, '72; George W. Ralston, '75; Herbert DuPuy, '78; Benjamin B. Nostrand, '78; Alexander Bell, '79; John Thomas Bourke, '81; James Angus Watson, '84; Harry William Rowley, '85; William James Jarrand Bowman, '86; William H. Slingluff, '87; Edgar S. Campbell, '89; George D. Mish, '89; Hanson Entriken Atkins, '91; Philip L. Cobb, '92; William Lawall Jacoby, '92; Anton Schneider, '92; John H. Tonkin, '92; Louis J. Krom, '93; Duncan White Patterson, '93; Alexander Beatty Sharp, '93; Charles A. Straw, '93; Henry Scudder Jaudon, '95; William L. Pettit, '97; Arthur Harold Serrell, '97; John Viehe, '99; Harry Anderson Wilcox, '99; Joseph Emanuel McCarthy, '01; Elmer McClellan Milheim, '02; Frederick Wilfred Downs, '03; Theodore K. Minsker, '03; Archibald Levy Altemus, '09; Percy C. Berkeley, '10; John Haldeman Graybill, '11; Lewis B. Sheen, '14; Carleton Schwab Wagner, '15; Harry C. Sugden, '16; G. March, '26; Charles Herbert Nagel, '27; Dean Whipple Bradford, '28; Lawrence Sherwood Potter, '29; Henry Chapman Mercer (Hon.), '29.

The report was accepted and ordered published.

35 Year Reunion of 1895

Three Trustees at Baccalaureate
General Trexler, E. G. Grace and
W. C. Dickerman

President Glancy called upon R. S. Taylor, '95, for his report as Treasurer of the Alumni Association. This report, which was accepted and ordered published, is printed on page 21.

Walter R. Okeson, Treasurer of the University, was called upon to report on the progress of the Alumni Fund during the past year. He announced that for the first time, the Alumni Fund had reached the goal of \$100,000. The announcement was greeted with applause. Mr. Okeson's remarks are printed in full on page 8 of this issue.

A. Parker-Smith, '84, in recognition of the death of William Suddards Franklin, former Professor of Physics at Lehigh, offered the following resolution which was unanimously adopted:

WHEREAS, the Alumni of Lehigh University, assembled at the meeting of the Alumni Association of said University this 7th day of June, 1930, have learned with deepest regret of the sudden death of Dr. William Suddards Franklin, who for many years (1897 to 1915) so adequately filled the chair of Professor of Physics at Lehigh,

RESOLVED, That this Association hereby voices and records the resultant most sincere sorrow of all who, as students or as associates of Professor Franklin, or at Lehigh homecomings and local club meetings, came to know and love his genial personality; that said Association hereby expresses the vivid appreciation which all have entertained of his brilliant mind, originality and independence of thought, and wide attainments in his chosen calling, his sterling character and many fascinating qualities, and attempts to indicate, by these all too inadequate words, its poignant sense of the loss to the engineering and teaching professions which necessarily follows his removal from earthly activities, and

FURTHER RESOLVED, That copies of these resolutions be forwarded by the Secretary to

There were more bands in the parade than ever before

Professor Franklin's family and to such other institutions and organizations with which he has been connected, as may be deemed appropriate.

President Glancy announced that the Board of Directors had awarded the active membership cup to the class of 1875 for their record of having 100% membership in the Alumni Association for the current year. Mr. E. G. Grace, representing the class of '99 which won the cup last year, presented it to J. H. Evans, '75, who was the only one of the four surviving members of '75 present.

President Glancy welcomed the class of 1930 into the ranks of the Alumni Association and introduced the President of the class, William (Tubby) Miller who was also captain of the football team that beat Lafayette last fall. Miller, speaking for the class of 1930, expressed satisfaction in becoming alumni and pledged the support of his class to the efforts of the Association. He announced that instead of attempting to raise funds for a class memorial, his classmates had decided to concentrate their efforts on obtaining 100% membership in the Alumni Association before they were graduated.

The report of the tellers was submitted as follows:

Total number of votes cast.....	767
For President, A. C. Dodson, '00....	765
For Vice-Presidents,	
Caleb S. Kenney, '10.....	767
A. V. Bodine, '15.....	767
For Alumnus Trustee,	
A. R. Glancy, '03.....	763

President Glancy called upon A. C. Dodson, '00, the newly-elected President, and presented the official gavel to him. Dodson called upon each of the other newly-elected officers to stand in acknowledgment of his introduction. He then spoke briefly of his plans for the coming year. His remarks are printed on pages 8 and 9 of this issue.

After announcements by the Secretary the meeting was adjourned *sine die*.

Respectfully submitted,

A. E. BUCHANAN, JR.
Executive Secretary.

Cincinnati Alumni Make Merry "Across the Border"

The annual outing of the Cincinnati Lehigh Club was held at the Cody estate near Erlanger, Ky., on Friday, May 23. The meeting was one of the most successful since the institution of the Cincinnati Lehigh Club and everyone present could not help but enjoy themselves. The dinner was excellent and the food was plentiful.

There were many discussions relative to what had gone on in Bethlehem, is going on and will go on. Austy Tate gave a short talk on athletics.

Among those present were: L. T. Rainey, '99, President of the Club; L. A. Baumann, '19, Secretary; G. A. Buvinger, '96 (who drove over from Dayton); Neal Dow, '18; Bruce Kring, '16; Shelby Kring, '11; W. S. Major, '24; P. C. Weterau, '25; R. R. Lukens, '98; J. D. Hastings, '98, and R. J. Davis, '30.

'90 won the reunion cup with 41.8% attendance. President F. R. Coates is holding it. Right, '95 with their red parasols

Large Class Graduated at Sixty-second Commencement

Two Hundred and Forty Members of the Class of 1930 Received Baccalaureate Degrees at Exercises Held in Packer Memorial Church. Humorous Vein Characterizes Class Day Exercises Held on Campus. Ivy Planted for First Time at New Library.

ONE OF Lehigh's largest classes was graduated at the sixty-second commencement exercises extending from Sunday, June 8, to Tuesday, June 10, inclusive, when 240 members of the Class of 1930 received their diplomas and that number were added to the ranks of Lehigh Alumni. Among other things this class has the distinction of being the first class to graduate from Lehigh since 1922 with at least one Lafayette football victory during its four years on South Mountain.

Included among those who received degrees were Thaddeus Merriman, '97, and Nicholas Heck, '03, upon whom were conferred honorary degrees as described in more detail elsewhere in this issue.

Forty-two members of the Class of 1930 were graduated with honors. Among this group were two of the outstanding athletes at Lehigh during the past four years, Art Davidowitz and Julius Seligson. The former was graduated with high honors, the latter with honors. Their achievements on the gridiron and tennis court respectively are familiar to all followers of Brown and White athletics.

University Sunday

THE baccalaureate exercises were held at eleven o'clock, Sunday morning, in the Packer Memorial Church, which was filled to capacity by the members of the graduating class, the faculty, relatives and friends of the seniors and a number of other interested persons. The service was preceded by the customary academic procession from the Alumni Memorial Building to the church.

The baccalaureate sermon was delivered by the Very Rev. D. Wilmot Gateson, University Chaplain, whose topic was "Faith and a Faith." T. Edgar

Shields, University organist and director of music, rendered organ selections and directed the choir of the Pro-Cathedral Church of the Nativity which led the singing.

Class Day

CLASS DAY exercises were held in the traditional site, near the flagpole, under the trees just east of the road leading up the hill past the President's house. The graduating class assembled on the platform erected for the purpose, facing a large gathering of parents, relatives and friends.

Led by the band, the class marched down the hill to the platform and the exercises opened with the salutatory address by William "Tubby" Miller, the president of the class. "Tubby" greeted the audience in his usual jovial style.

The last roll call of the class, read by Robert Herbrnck, the secretary, was accompanied by the traditional breaking of the long stem clay pipes on the mortar boards of classmates.

The final event on this program was the planting of the class' sprig of ivy. William Powell delivered the oration accompanying the ceremony. The ivy was planted beside the west wall of the new University Library.

These exercises were followed by the President's reception to the members of the graduating class and their families, the trustees, alumni, faculty and friends of the University, in Drown Hall. The senior ball was held on Monday evening in the same place.

Commencement Exercises

ALTHOUGH heavy showers robbed the commencement exercises of much of their color as far as the academic procession and recession were

concerned, nevertheless, the exercises in the chapel were characterized by impressive dignity. Loud speakers had been erected on the south side of the chapel for the overflow crowd, but of course the inclement weather rendered these valueless. Almost every available inch within the building was occupied by the many who desired to attend the exercises, a large number standing throughout the ceremonies.

Organ selections were given during the exercises by T. Edgar Shields, University organist, and prayers were offered by the Very Rev. D. Wilmot Gateson, University chaplain.

The commencement address, "The Trained Imagination," was given by George Edgar Vincent, A.B., Ph.D., LL.D., president emeritus of the Rockefeller Foundation and former president of the University of Minnesota. Abstracts from his address follow:

"Genuine success in life depends almost entirely upon the development of a virile, controlled and rich imagination," declared Dr. Vincent, "out of which a man can secure the utmost enjoyment."

He described life as the experiences of the individual reproduced in motion pictures of the mind. Each man has his own private theatre in which he is the only spectator and in which he can get a true perspective of himself by showing "films" of his past acts.

He urged the graduates to live a life as well as to seek material success. He drew a comparison between two men who had acquired about equal wealth in the course of their lives. One retired to a beautiful and rich library where he spent the remainder of his life with the greatest pleasure while the other was obliged to resort to material pleasures, to enter politics, etc., and was a bore to himself if he were obliged to be alone for half an hour. He said this illustrated the difference between retiring "to something" and "on something."

He urged the members of the graduating class not to cultivate their imagination merely as a sense of duty to their parents, their friends, their alma mater or society but for the sake of enjoying enriched lives.

The complete list of the degrees conferred, with the exception of the two honorary degrees, which are mentioned above, follows:

Master of Arts (Major in Education):
E. Van Keuren, B.A. (Lehigh), Lebanon.

Master of Science (Major in Chemistry): G. L. Ball, Jr., B.S. in Chem. (Penn State), Pittsburgh; P. V. Hartman, B.A. (Moravian), Bethlehem; J. DeH. Long, B.S. (Franklin and Marshall), Lancaster; T. H. Marshall, B.S. (Iowa State), Waterloo, Ia.; J. Z. Miller, Ch.E. (Lehigh), Harrisburg; C. T. Oswald, Ch.E. (Lehigh), Fullerton;

(Major in Metallurgy): E. S. Gre'ner, B.S. in Met.E. (Carnegie Tech), Lebanon; W. E. Harvey, Met.E. (Lehigh), Catsaunqua.

"Tubby" Miller, captain of the 1929 football team, stars in an academic role at the Class Day exercises

Bachelor of Arts: H. M. Adams, Fall River, Mass.; R. W. Barthold, Bethlehem; J. W. Beck, Millville, N. J.; W. H. Bennett, Rockville Centre, N. Y.; R. I. Blair, River Edge, N. J.; Z. Boosin, New York City; H. W. Castles, Philadelphia; A. M. Clyne, Far Rockaway, N. Y.; R. J. Conahan, Jr., Hazleton; A. M. Davidowitz, Scranton; E. R. Davis, Collingswood, N. J.; J. Dimont, Staten Island, N. Y.; V. A. Doss, Hawthorne, N. J.; W. G. Figan, Springfield, Mass.; D. B. Frutkin, Mount Vernon, N. Y.; R. A. Gade, Metuchen, N. J.; S. S. Gidding, Wildwood, N. J.; J. L. Goldberg, Brooklyn; E. J. Goldstein, East Taunton, Mass.; V. Haas, Philadelphia; J. N. Hall, Carlisle; B. R. Hamburger, New York City; D. L. Harley, Martinsburg, W. Va.; E. R. Hartman, Allentown; A. F. Helms, Brooklyn; D. D. Hendlin, New York City; R. C. Hoag, Newark, N. J.; R. J. Hoffman, Allentown; A. C. Johnson, Bridgeport, Conn.; P. G. Justice, Bethlehem; E. Kahn, Allentown; E. S. Keith, Sandy Run; E. M. Koch, Reading; M. Kramer, Allentown; L. Laws, Jr., Philadelphia; F. Leitner, Brooklyn; L. G. Lessig, Pottstown; A. R. Levy, Brooklyn; L. J. Lieliardi, Brooklyn; R. T. Lyman, Hazleton; P. R. Muldberg, New York City; H. H. Ogden, New York City; E. S. Olmsted, Burnside, Conn.; G. M. Ondeck, Hazleton; H. P. Paget, Elmira, N. Y.; Y. Pratt, Nanticoke; H. A. Schick, Rosebank, N. Y.; G. W. Schoenhut, Philadelphia; M. Schultz, Philadelphia; H. M. Schwartz, Brooklyn; H. A. Seward, Parkersburg, W. Va.; M. W. Shulman, Irvington, N. J.; I. M. Siegel, New York City; S. M. Simmons, Roxbury, Mass.; S. Slosberg, Trenton, N. J.; H. Sulken, Brooklyn; S. B. Toth, Pottsville; A. M. Tur, New York City; S. D. Walters, Trenton, N. J.; J. W. Watters, Ashland; R. L. Wiener, New York City; L. G. Wilson, New York City; P. A. Wyckoff, Jr., New York City.

Bachelor of Science in Business Administration: R. Alder, Jr., Woodcliff, N. J.; F. S. Barker, Bridgeton, N. J.; G. C. L. Barnes, Haddonfield, N. J.; R. S. Bennett, East Orange, N. J.; W. E. Blackman, East Orange, N. J.; C. S. Boies, Jr., Seymour, Conn.; J. B. Brown, Scranton; T. J. Callan, Flushing, N. Y.; M. R. Clifton, Baltimore; J. W. Cochran, Jr., Williamsport; F. J. Collins, Rome, N. Y.; G. H. Cross, Jr., Swarthmore; A. J. Davis, Scranton; J. S. Day, Newark, N. J.; J. H. Elliott, Marcus Hook; E. Epstein, Easton; H. H. Feakins, Swarthmore; J. D. Fenner, South Orange, N. J.; J. F. Fulmer, Bethlehem; J. J. Geisel, McKeesport; H. A. Hallock, Palmerton; F. P. Hill, Jr., Philadelphia; W. J. Hutchins, East Orange, N. J.; J. J. V. Kelly, Brooklyn; E. M. Lawrence, Salem, N. J.; R. H. Lewis, Buffalo; L. C. Marcus, Atlantic City; J. C. McFarlane, Jr., Plymouth; J. McLachlan, Jr., Easton; E. M. Miller, Jr., Easton; S. A. Monroe, Hazleton; R. L. Myers, Jr., Linwood, Md.; W. F. Powell, Jr., Philadelphia; S. W. Ransom, Bloomfield, N. J.; R. M. Reese, Kingston; H. Rohrs, Ridgewood, N. J.; W. E. Rothaus, Allentown; W. H. Seaton, Oil City; J. J. Seligson, New York City; M. H. Smith, Columbus, O.; W. H. Snyder, Jr., Newport, N. J.; J. Somerville, Bethlehem; E. S. Sprinz, New York City; E. A. Staub, Millburn, N. J.; R. H. Stauffer, Leola; L. M. Taylor, Newark, N. J.; G. W. Thomas, Plymouth; G. M. Vroman, Larchmont, N. Y.; E. P. Werley, Allentown.

Bachelor of Science in Chemical Engineering: R. L. Anderson, Worcester, Mass.; W. Beck, Trenton, N. J.; A. V. Bennet, Lebanon; H. F. Burns, Catsaqua; K. A. Earhart, Avonmore; R. W. Hurley, Belmar, N. J.; M. A. Kise, Allentown; L. A. Kline, New York City; J. J. A. Muendel, Woodcliff-on-Hudson, N. J.; A. N. Rogers, Reading; A. R. Secor, Scarborough, N. Y.; D. A. Shenton, Slatington; A. L. Smith, Catsaqua; W. W. Ten Eyck, Washington, D. C.; J. C. Werner, Jr., Hasbrouck Heights, N. J.; A. H. Zeigler, Norristown.

Bachelor of Science in Chemistry: A. J. Frantz, Allentown; W. S. Miller, Allentown; C. R. Woll, Philadelphia.

Bachelor of Science in Civil Engineering: H. A. Barnes, Philadelphia; D. J. Batts, New York City; C. C. Baur, Jr., East Orange, N. J.; L. C. Boyer, Shamokin; P. A. Brosz, Philadelphia; G. C. Calder, Lancaster; J. K. Conneen, Maplewood, N. J.; J. K. Deicher, Upper Darby; W. E. Fuldner, Philadelphia; E. Getzys, Harrisburg; R. E. Gohl, Harrisburg; L. R. Hewitt, Ocean View, N. J.; P. J. Hickman, Arlington, N. J.; R. B. Job, Nanti-

President Richards and Dr. George E. Vincent, who delivered the Commencement address

coke; E. J. Jones, Ishpeming, Mich.; R. A. Karr, West Reading; W. D. Kelly, II, Philadelphia; R. P. Kline, Monongahela; C. L. Kreidler, Bethlehem; W. D. MacGeorge, Vineland, N. J.; H. E. Michael, Holtwood, D. D. Mortimer, New York City; W. M. Moyer, B.S. (Ursinus), Quakertown; G. S. Opp, Jr., Philadelphia; B. Overfield, Bethlehem; L. Pailey, Williamstown; H. C. Pratt, Jr., Washington, D. C.; J. E. Spangler, York; D. B. Stabler, Williamsport; F. W. Tillinghast, Baltimore; R. Tull, Fanwood, N. J.; G. C. Vaughan, Washington, D. C.; H. Wardle, Philadelphia; J. P. Zeaser, Uniontown, J. A. Zipser, New York City.

Bachelor of Science in Electrical Engineering: C. R. Bachman, Upper Montclair, N. J.; R. A. Baker, Reading; E. S. Brotzman, Easton; J. R. Campbell, Long Branch, N. J.; S. G. Diehl, Allentown; A. J. Falcone, Roseto; W. R. Foley, Allentown; R. B. George, Tunkhannock; A. F. Griffith, Catsaqua; D. P. Griffith, Catsaqua; E. M. Healy, Minneapolis; R. A. Herbruck, Dayton, O.; L. C. Herman, Easton; J. E. Johnson, Collegeville; C. P. J. King, Catsaqua; S. A. Kuntz, Allentown; F. E. Loomis, Wilkes-Barre; E. S. Phelps, Rockville Centre, N. Y.; P. G. Potter, Rockville Centre, N. Y.; L. DeP. Simonson, Hazlet, N. J.; H. F. Singer, Jersey; C. A. Stay, Locust Valley, N. Y.; B. O. Steinert, Belle Vernon; R. E. Stocker, Easton; T. P. Strawn, Quakertown; L. Sussman, Allentown; S. R. VanBlarcom, Midland Park, N. J.; W. H. Vroom, Ridgewood, N. J.; D. E. Walbert, Allentown; E. H. Weiss, Allentown; F. J. Whitney, Jr., Philadelphia; W. P. Wills, Philadelphia; J. D. Woodward, Bala-Cynwyd; H. C. Youngken, Bethlehem; J. E. Zeaser, Catsaqua.

Bachelor of Science in Engineering Physics: D. O. Burger, Allentown; D. W. Epstein, Bethlehem; J. L. Myer, Leola; R. Serber, Philadelphia; V. Stein, Bethlehem.

Bachelor of Science in Industrial Engineering: D. B. Atkins, Pottsville; W. V. Badgley, Jr., Chatham, N. J.; R. C. Barber, Ketchikan, Alaska; R. D. Chapman, Jenkintown; K. W. Goodwin, Millville, N. J.; L. L. Jones, Jr., Greensburg; R. F. Latimore, West Orange, N. J.; R. P. Lentz, Jr., Eggertsville, N. Y.; W. A. MacCalla, Youngstown, O.; R. H. Many, Jr., Bayonne, N. J.; F. L. Schumaker, Philadelphia; T. F. Storn, Pottstown; J. A. Waterman, Pittsburgh.

Bachelor of Science in Mechanical Engineering: M. S. Christman, Trumbauersville; G. C. Dorsett, Garwood, N. J.; A. W. Dow, Brookline; F. W. Emhardt, Philadelphia; H. S. Keller, Jr., Bloomington; J. T. Marshall, Langhorne; J. E. Monsell, Greenport, N. Y.; G. E. Oller, Jr., Philadelphia; F. K. Paget, Flushing, N. Y.; H. W. Semar, Philadelphia; C. H. Tracer, Jr., Rock Island, Ill.; F. P. Tucker, Bernardsville, N. J.; D. L. Wright, Philadelphia; H. J. Zimmer, Philadelphia.

Bachelor of Science in Metallurgical Engineering: T. E. Brower, Little Silver, N. J.; W. C. Cuntz, New Gardens, N. Y.; E. L. Gabler, Holyoke, Mass.; C. R. Wentz, Duquesne.

Bachelor of Science in Mining Engineering: G. L. DeHuff, Jr., Millville, N. J.; J. H. Girdler, Cleveland Heights, O.; S. H. Thatcher, Bethlehem.

Commissions as Second Lieutenant in the Officers' Reserve Corps were awarded to the following:

Infantry: D. B. Atkins, W. E. Blackman, D. L. Bowdler, H. E. Datwyler, D. W. Epstein, W. H. Geib, D. P. Johnson, G. W. King, E. M. Koch, M. Kramer, W. W. Lowry, E. H. Neudel, G. E. Oller, Jr., F. A. Paget, W. F. Powell, Jr., E. N. Small, G. C. Vaughan, P. L. Whims.

Ordinance: J. M. Heilmann, L. A. Lubow, J. Leland Myer, C. R. Wentz, W. P. Wills.

Commissions for the following men were withheld because they were under age. They received certificates of eligibility for commissions as Second Lieutenant in the Officers' Reserve Corps:

Infantry: H. F. Allen, D. O. Burger, J. D. Dickerson.

Ordinance: R. C. Barber, J. C. Werner, Jr.

The honor graduates follow:

Highest Honors: R. J. Hoffman, M. A. Kise.

High Honors: L. M. Clyne, A. Davidowitz, W. A. MacCalla, W. F. Powell, A. N. Rogers, S. B. Toth.

Honors: F. S. Barker, E. S. Brotzman, R. D. Chapman, T. J. Conahan, G. L. DeHuff, J. Dimont, D. W. Epstein, A. J. Frantz, L. B. Frutkin, S. S. Gidding, R. E. Gohl, B. R. Hamburger, D. L. Harley, D. D. Hendlin, R. C. Hoag, P. G. Justice, R. A. Karr, C. P. J. King, C. L. Kreidler, R. F. Latimore, W. S. Miller, W. M. Moyer, J. L. Myer, H. A. Schick, J. Seligson, H. W. Semar, R. F. Serber, I. M. Siegel, A. L. Smith, W. Ten Eyck, S. H. Thatcher, R. Tull, C. R. Woll.

The following special honors were also awarded:

Biology: I. M. Clyne and M. W. Shulman.

Economics: B. R. Hamburger.

English: I. P. Goldstein, D. L. Harley, A. P. Helms, S. B. Toth.

Philosophy: L. B. Frutkin.

Honor graduates in the Reserve Officers' Training Corps: W. F. Powell, Jr., G. C. Vaughan.

Prizes were awarded as follows:

Williams Senior Prizes in English: First Prize (\$75), D. L. Harley; Second Prize (\$25), I. P. Goldstein and A. P. Helms. Williams H. Chandler Prize in Chemistry and Chemical Engineering (\$25), to M. A. Kise. John E. Carson Prize for the best C.B. Thesis (\$50), to W. D. MacGeorge. Philip Francis Dupont Memorial Thesis Prize in Electrical Engineering, to E. S. Brotzman. Electrical Engineering Prize for the best C.B. Thesis (\$25), to C. A. Stay. American Society of Civil Engineers Junior Membership Prize (\$20), to W. M. Moyer.

CLASS REUNIONS

33-1/3% of '74 Was Present

My dear Buchanan:

There are only a few of the Alumni now left who knew or remember the Class of '74; but I have thought that those few might be interested to hear something about the three survivors of the five who graduated in the memorable (for us) year of 1874.

On my return, last Saturday, from the Alumni Day exercises, I found a letter from Allan A. Herr saying that he had fully intended to have been at the exercises on Alumni Day; but on account of a sudden and unexpected indisposition his physician would not allow him to undertake the trip.

This morning I received a letter from Mrs. William D. Hartshorne saying that her husband had a very serious illness in January last which had left him so feeble that he has been confined to his bed since then. Moreover his eyesight "is nearly gone" so that he cannot even see the faces of the members of his family.

About myself I need make no comment, as you saw me last week; and I am looking forward to celebrating our sixth anniversary in 1974. D. V.

Yours cordially,

CASPAR WISTAR HAINES.

'84's Off-Year Reunion Almost Won Cup

Four men of the Class of '84 from extra Bethlehem habitats dined with Reggie Radford, local pillar and representative of the class, at the Bethlehem Club the evening of Alumni Day. "Among those present," and "we have with us this evening also," was Al. Brodhead, '88, who easily outweighed any two absent '84 men, and so was elected an honorary member of the class, for present and all future reunion occasions.

Reggie was his usually quiet but complete success as host, the dinner was the similarly usual complete success of the Bethlehem Club cuisine, and a homelike atmosphere was produced by the unique souvenirs and place cards selected by Mrs. Radford, who is also an honorary member of the class.

In addition to Douglas, Focht, Godshall and Parker-Smith, who attended, Haines had arranged to come but was detained by sudden illness in his family, and Searle, who was unable to be present as expected. Even on an off year, and with these unexpected absences, the attendance reached 41.6%, which is within a fraction of the percentage of the class of 1890, which won the Reunion Cup this year.

A. PARKER-SMITH.

Class of 1888

It was my very great privilege to be in Bethlehem on Alumni Day and, with Al. Brodhead, to answer "present" for the Class of '88. The enthusiasm of the Reunion Classes was contagious and we wished that it had been our Reunion year—but just wait.

Reports at the Alumni meeting indicate the very healthy condition of affairs at

Lehigh and we may be justly proud of the support given by the Alumni—over one hundred thousand dollars in the past year and that from voluntary gifts, without any campaign or "drive." May the day speedily come when every man of us will want to have a part in this!

It would do you good to walk about the campus—the most beautiful campus in this country—and see the improvements made even since our last Reunion. The Packard Laboratory is a marvel and will mean much to the students of tomorrow. Suppose we try and return to Bethlehem at its dedication in October. The greatly enlarged library building will gladden your heart—particularly if you have had a part in making this possible, for this is strictly an alumni project and is being paid for by our extra contributions to the Alumni Fund.

Meet me in Bethlehem in October and we will look things over together.

H. S. MINER.

'90 Won the Reunion Cup

THE best reunion '90 has ever had is now history. At the annual Alumni Dinner on Friday night, there were eighteen '90 men present but in the parade on Saturday, there were twenty-four of us. Most of the other classes were rigged out more gaudily than '90, but whatever we lacked in decoration we made up in dignity, impressiveness and accomplishment. We won the active reunion cup by having 41.8% present—the highest percentage of living members present.

The reunion dinner was held in the University Room of the Hotel Bethlehem. Here took place a royal event. Time was truly turned back—gray heads, bald heads and what not were again boys for four short hours. Everyone present was called upon by President Coates to speak. Some spoke twice, others three, four, five times and oftener. Occasionally, or most of the time, two or three were saving time by orating at once, and it took all the stuff Coates had to maintain sufficient quietness to permit all to be heard. Warriner rendered valiant assistance to Coates by raising points of order, so that parliamentary law should be maintained inviolate.

We had as guests, Throckmorton, '91, and Hutchinson, '91. Throckmorton gave all '90 men an invitation to be his guests at a dinner next June. More definite announcement later. Straub invites all '90 men to be his guests at a dinner at the University Club, Pittsburgh, in January next. Coates invites all '90 men to be his guests at a dinner at Bethlehem the evening preceding the Lafayette football game next fall.

The same Class Officers were elected to serve for the next five years.

Those who attended the reunion were: Beazell, Coates, Cnllum, DeMoyer, Downey, Fairchild, Foering, Gibbs, King, Litch, Metzger, Miller, Neumeyer, Perkins, Potter, Prindle, Ritchey, Schnabel, Sherman, Schon, Straub, Tomkinson, Turner, Warriner.

Class of 1891

This is written just after my return from Alumni Day, where a splendid time was had by all, and those who stayed away had good reason to be sorry. I was the sole representative of the "great and only" class, '90 was on hand for her 40th with twenty-three men, beating out '95 for our Reunion Cup by an eyelash. It is certainly up to '91 to win that Cup next year.

Topping writes that General Depression has not been able to break down his (front) line of business to any extent. He says, "Please urge all the classmates to make a special effort to come out for this reunion" (in 1931).

Camp comments on plans for our 40th, thusly: "Why worry?" Why indeed! There was certainly no worry apparent on the faces of the reunion classes last Saturday, even when Lehigh and Villa Nova both forgot they were playing baseball, and Lehigh had the worse memory of the two.

WALTON FORSTALL.

"We Are the '95"—And How!

THE gray hair and bald heads indicated age but the brilliant colors of our costumes showed the youthful hearts that beat (and how they did beat when the line of march was uphill) under our cardinal shoulder sashes. Some class to this Class of '95.

The first arrival was Lannan, who blew in on Wednesday, June 4. The last to leave were Lentz and Barber, who were here until Commencement on June 10. (Lentz had a son and Barber a nephew who was graduated with the Class of '30.) So our reunion lasted just about a week.

J. B. Townsend, from Texas, and E. G. Godshalk, from Oklahoma, had the most mileage to their credit, for although J. C. Barber hails from Alaska, he has been in the East for almost a year. Johnny Whitmoyer in England, Fritz VanBentham in Holland and S. V. Lippitt in Porto Rico could not make the grade this year, but we heard from all three indicating they would be on hand for our Fortieth.

Saucon Valley Country Club was the next scene of action and here the golfers assembled. If they had not had so much to talk about, someone might have played golf. Nine holes seemed to be about the limit anyone found time enough to play. The baseball fans took a chew of tobacco, sneered openly at the golfers, and adjourned to Taylor Field, where they saw the Lehigh team trounce Muhlenberg to the tune of 20 to 3.

All the outside contingents arrived at the hotel about 6 o'clock and room 501 became the center of the first real get-together of the day. Thirty-six '95 men sat down at the Alumni Dinner and immediately Eddie Ferriday took control of the situation. Under Eddie's able leadership the dinner, which started quietly enough, became a riot of songs and cheers. The other classes did not know him but they recognized at once that

THE BELL TELEPHONE SYSTEM IS ORGANIZED TO GIVE CONSTANTLY IMPROVED SERVICE . . . QUICK,
ACCURATE, EASY TO USE

What you want of the telephone . . . it is our business to give

An Advertisement of the American Telephone and Telegraph Company

WHEN you order a telephone, you want it put in promptly. During the last five years the average length of time needed to have a telephone installed has been cut nearly in half.

You want quick and accurate service, free from trouble. Good as the service was five years ago, today there are a third less troubles per telephone. During this same period there have been marked increases in the already high percentage of perfectly transmitted conversations.

When you make a toll call, you want a prompt, clear connection. Five years ago 70 per cent of all toll and long distance calls were handled while the calling person remained at the telephone. Today all but a very small per cent are handled this way.

The Bell System is organized to give constantly

improved service. Several thousand persons in the Bell Laboratories are engaged in research that improves the material means of telephony. The Western Electric Company, with plants at Chicago, Kearny, N. J., and Baltimore, specializes in the manufacture of precision telephone equipment of the highest quality. From its warehouses all over the country, it supplies the millions of delicate parts for Bell System apparatus.

The operation of the System is carried on by 24 Associated Companies, each attuned to the area it serves. The staff of the American Telephone and Telegraph Company is continually developing better methods for the use of these operating companies.

Your telephone service today is better than ever before. The organized effort of the Bell System is directed toward making it even better tomorrow.

here was a real impresario and were behind him to a man. Of course '95, with such songbirds as Slim Murray, Johnny Gibson, Henry Quigley (yes, "Quig" was back for the first time in 35 years). Bob Taylor and Jim Budd was backing up Eddie's efforts with enthusiasm. Incidentally, we contributed to the program by putting on a p-rade with Slim Murray carrying the '95 banner and the gang lustily singing our class song,

"We are the '95,

We are, we are, we are.

We can play like little children,

We can fight like men of war.

And to work for Lehigh's glory

We come from near and far.

We are the '95,

We are! We are!! We are!!!"

At ten o'clock on Saturday morning (led by the Bethlehem Band) in our natty costumes of blue coat, white trousers, cardinal shoulder sash, and cardinal umbrellas, we paraded from the hotel to the Campus. Boy, oh boy, you should have seen us. Eddie Ferriday was Grand Marshal and evolved some nifty exercises for those umbrellas. We simply stopped the show.

No use to tell you of the alumni meeting, the luncheon, the alumni parade or the ball game except to say that '95 was in the midst of everything and the center of attraction.

When seven o'clock arrived here we all were again at the Saucon Valley Country Club sitting down to our Class Banquet. Then arose Jim Budd in all his glory, carolling blithely songs of the olden, golden days. It made no difference to Jim whether or not you joined in the chorus. He did not even care whether he had an audience. All he asked was room for his feet and his stomach. Were we with him? I'll say we were to the extent of forty sore throats on Sunday morning.

Then came stories and reminiscences galore. No one was called on. It wasn't necessary. E. C. Brown told of how the '95 electricals re-vamped the course in electrical engineering and Eddie Steinmetz, Johnny Gibson, Slim Murray and all the other electricals naturally arose to add the details Eugene overlooked. Johnny Stocker, Bones Castleman, Frank Baker, George Beggs, "Romeo" Houston (six children has "Romeo" with the oldest—a girl—the best athlete in the bunch. I'll bet she's some athlete if she takes after her dad). Herbert Rights, Benny Loeb, Ira Oberly and others (I'm a little hazy about just who they were) followed one another so fast that Chairman Bob never got a chance to read the letters from the absent ones until almost midnight.

Sunday was a day of quiet, talks, Baccalaureate sermon, golf and good byes. Everyone agreed that the 35th reunion of the glorious Class of '95 was the best yet—wait 'til you see our Fortieth!

Did you miss the 35th? If so, you will want to know who the lucky ones were who got back. Here they are:

C. T. Ayres, F. Baker, Jr., J. C. Barber, G. W. Beggs, Jr., J. E. Brooks, E. C. Brown, J. H. Budd, C. C. Burgess, F. L. Castleman, W. J. Collier, H. M. S. Cressman, L. S. Duling, H. Eckfeldt, A. W. A. Eden, E. C. Ferriday, J. J. Gibson, E. G. Godshalk, E. A. Houston, E. A. Jacoby, W. A. James, E. B. John, W. B. Keim, L. E. Lannan, R. P. Lentz, A. H. Lewis, B. W. Loeb, G. F. Matteson, A. E.

Morgan, W. S. Murray, I. A. Oberly, W. R. Okeson, J. H. Phillips, H. C. Quigley, H. T. Rights, E. G. Steinmetz, J. E. Stocker, R. S. Taylor, C. F. Townsend, J. B. Townsend, H. A. White and R. M. White.
W. R. OKESON.

'97 Had An Impromptu Reunion

AS FOUR '97 men sat in the stands on June 7, listening to the banging and crashing of six sheet iron bands, including seven bass drums, this line, sung by the old duffer in Gilbert and Sullivan's "Pirates of Penzance" came back to me with great force—

"I am the very model of a modern

Major General."

It is certain that no '97 man ever saw more color in the uniform of any General, of any nation, than some of those bandmen wore.

I got in at about noon on Friday, and attended the Alumni Council meeting, which wanted to know why the sons of more '97 men do not enroll at Lehigh. Well, I could not answer for the rest of you, but I am doing my darndest, as I am trying to save up for the tuition of my third entrant. Bud Saltzman has an alumnus son of eight years standing, and there are other second generation '97 men, but we feel that there could be still more.

The four '97 men who defied the sheriff and found their way to the campus are Boyt, Mount, Saltzman, and Pennington. Boyt's wife is a Fem Sem girl and visited that school with their daughter, while John took the son over to Lehigh and showed him all the new things which we have. John has a mighty husky boy, just the build for a center and two guards or one goal keeper. A most extraordinary exhibition of affection for me was exhibited by John in a letter advising that he would be with us on Alumni Day. John read my account of renewing my youth on the lacrosse field, and says with reference thereto, "Hope to see you and some of those bruises. You darned old fool!" John doesn't know that I have a half dozen sticks and balls behind the kitchen door, and that my own sons bang me up more than the Varsity did.

We will soon have to ask the grandfathers to restrain themselves and not step forward so lively. Here's part of a letter from Underwood:

"The class statistics regarding the grandfather records of the class, published from time to time in your letters in the BULLETIN, have been interesting but the surprising part has been the apparent slow increase of the descendants of the second generation.

"Go to your archives and dig out the group photograph taken on the occasion of our tenth reunion and on that picture you will note one junior member of '97. At this time I wish to let you know that this same junior member is an officer in the U. S. Army, Corps of Engineers, and is stationed at West Point teaching mathematics. He is also the proud father of a daughter, which by the very nature of things, elects me to the class of grandfathers, where I have been for the past eleven months."

We hope that all three generations of the Underwood family, as well as the most important one, Mrs. Underwood, will be on hand two years from now, at our thirty-fifth.

Jenks, from whom I have not heard

for thirty-three years, wrote to express regret at not being able to be present. He said in part:

"Wish I was going to be in the East about June 7th, as nothing would give me greater pleasure than to see the new Lehigh and the old gang. Brady and I see each other occasionally. Best regards."

Jenks says that he sees Brady, and Brady says that he sees Jenks. Each vouches for the other being alive. That's good. We hope to prove it by seeing both in 1932.

Barry MacNutt also wrote in. I know that I speak truthfully for the crowd when I say that we miss Barry keenly when we are on the campus and he is not there with his broad smile to welcome us. Here is a line from his letter:

"I am glad if, as your P. S. on the 'Last Call' stated, '97 thinks of me as well as ever, and you may be sure that I reciprocate as far as our class is concerned, individually and collectively. If the Class needs my support, mentally, morally or financially, I'm there to the best of my ability."

Sammy Riegel expressed sincere regret at not being able to be present. We must have Sam in 1932, and give him two years' notice right now. Sam says in part:

"This year I am a member of the general committee on 'Locomotive Design and Construction,' American Railway Association, and a member of five other sub-committees, one of which meets on June 6th in New York and is expected to extend to the 7th, and I naturally cannot be in both places at the same time.

"I had hoped one of these years I might join the boys at Lehigh but it seems impossible again this year to do so. I would especially like to visit with you and some of the other of our classmates and hope that this can be done very soon."

John Sheppard has always come through and did not fail us this time. Here is a part of his letter:

"I enjoyed reading your last letter in the BULLETIN, as I do all of your letters. So keep the good work going. If all of the '97 men have the same pleasure in reading your 'newsy' writings, and I believe they do, you are amply repaid for the strenuous work in hand. Turning back the hands of time on the athletic field as you did was indeed a pleasure. I can only visualize the present athletic field from photographs, as it has been at least fifteen years since I have had the pleasure of returning to college. I think I shall start a 'Christmas' savings fund or a 35-year reunion fund and look the boys and the place over in 1932. Time has dealt lightly with you if you can get out and bat the ball as you say you did, or are you pulling the wool over the eyes of us at a distance, while in reality you only put on a uniform and floundered around panting for breath? When I get a command to engineer the lawn mower I do so with vim for a few minutes, then I dig into my handkerchief and pull out 75 cents and call one of the short pants boys near door, explaining to him that I cannot do any more grass cutting as there are important letters to write. With our Summer rains on now, I always keep some important letters on hand. The grass grows over night to stupendous heights—seemingly."

DUPLEX PRESSES

Prints all page combinations in multiples of two and at full speed—30,000 per hour. May be readily arranged for bill, poster and color supplement work.

DUPLEX SUPER-DUTY INTERCHANGEABLE UNIT OCTUPLE PRESS

All printing and folding units are interchangeable and constructed on an over-size basis to meet the exacting requirements of metropolitan press rooms for maximum net production, low maintenance cost, ease and safety of operation.

THE DUPLEX PRINTING PRESS COMPANY
BATTLE CREEK, MICHIGAN

Good old Mount also wrote in, promising to be up on the 7th, and he was. He is one of the most faithful '97 men and we instinctively look around for Mount at the Philadelphia Club meetings and on Alumni Day.

Bud Saltzman has a good idea. He claims membership in '95, '96 and '97. He celebrates for three years, and rests the other two years, then starts all over again.

Only two '97 men, Saltzman and Pennington, attended the Back-every-year Club meeting. Bud assisted Tommy Gannon and Bernie in the fun making, and all three were on the verge of being turned over to the Sergeant-at-Arms.

J. H. PENNINGTON.

'00 Celebrates Its Thirtieth

THE 30-year reunion of the Class of 1900 was an event that will not be forgotten by those who responded to the call for the gathering of the clan.

Dick Dodson certainly arranged an ideal setup for the parade. We were decorated with brown and white streamers and we were provided with brown and white umbrellas with '00 marked on the fabric. A banner, announcing the fact that we were celebrating our 30-year reunion, left no possible chance for anyone not to know that we were the Class of 1900. Following the banner was a band of 40 pieces and eighteen members of the

Class of 1900 accompanied by some men of '99 and '01. We attended the ball game between Villanova and Lehigh.

Messrs. Gosztonyi and Jacobs of the Class of 1910 invited our class to "drop in" and see their gang after the ball game. We were greeted very cordially and enjoyed the short visit immensely.

The climax of the events was the reunion dinner which was held in the Fountain Room of Hotel Bethlehem. As you know, the class was the guest of Dick Dodson. Dick's memory is wonderful. He did not forget the capacity of the boys and provided more than enough food to satisfy the hungriest. Morrow Chamberlain was toastmaster. He gave us a masterful talk and then

THE etching of the Lucy Packer Linderman Library, reproduced above, is the work of Juliet White Gross, of Sellersville, Pa. It was made at the suggestion of a Lehigh alumnus who wanted an artistic rendering of the old building, which, to him, symbolized happy memories of undergraduate days. The etching was made just before work began on the new addition to the library, and it is therefore the last picture of the building before it was engulfed by the new structure.

With the thought that the picture might have the same appeal to other alumni, the artist has prepared a limited number of these etchings, about 8 x 10 inches and offers them for sale through the Alumni Association at the standard price of \$15. She has

volunteered to contribute one-third of the receipts to the Alumni Fund, so by ordering on the coupon below, you will obtain a splendid etching of the old Library and, at the same time, swell the Alumni Fund.

Address.....

sprang a surprise. He expressed his appreciation that the Class of 1900 had honored him as president during a period of thirty years and asked to be relieved. He suggested that the honor be conferred upon Dick Dodson. His request was granted and a rising vote of thanks was given him for the able manner in which he had piloted the ship of 1900 and a pledge of loyalty was given to our new president, Dick Dodson. The Class of 1900 was honored very signally at this reunion period because Dick was elected president of the Lehigh Alumni Association.

After the grandfathers, the fathers, the widowers and the bachelors had finished their talks, the 30-year reunion was adjourned in harmony to reassemble again in 1935.

The following members attended: Andrew T. Brice, Morrow Chamberlain, Robert M. Cortright, Alan C. Dodson, G. H. Dortch, F. A. Groff, Charles F. Gross, W. B. Grubbe, M. J. Honan, John E. Leibfried, W. T. McCarthy, George L. Robinson, E. T. Satchell, Charles S. Snyder, W. P. Starkey, J. Ralph Van Dwyne, and E. A. Yellis. D. H. Canfield and H. L. Bowers were unable to remain for the reunion dinner.

E. A. YELLS.

25-Year Reunion of '05 Best Yet

By W. H. LESSER

WELL, boys, the great event is over—the 25th reunion of our class, and they came from the Atlantic to the Pacific. Shine Kirk pulled in from Los Angeles and many from New York. Thirty-seven in number did those '05ers appear, and how they did enjoy it.

Bill Estes, chairman of the reunion committee, and his loyal assistants, Tubby Snyder and Pete Walker, deserve the credit for staging the most successful reunion we ever had. It surpassed by far all the other parties which I observed while on the campus. Our costumes consisted of white trousers, blue and red blazers, and a blue and red umbrella, not forgetting the hat band. My children have had a fine time with the umbrella since I returned.

The dinner was held in the Bethlehem Club with Dan Berg in the chair, and he handled the meeting just the same as in olden days. He had a most difficult time keeping the boys still enough to be heard. Every detail of the dinner was arranged and this included the wet goods.

And were there speeches? Pop Kline gave a speech which was pretty. I am sure if the absent members would have known Pop would pull that speech, we would have had 100% attendance. And the dissertation on the Pythian Sisters by Hosty was excelled only by his explanation of "the flight of the soul."

Shine Kirk, Pop Kline, Clot Brown and Clarence White sat at one table in a corner and believe me, boys, they were hot sketches. That laugh and expression of Pop Kline's are worth money in the talking pictures.

Yes, we sang songs, you all know them. We used to sing them at the minstrel shows of 25 years ago. Dean Corsa has developed into quite a song leader, his barber shops are just as good.

Dan gave all those present a chance to say a word and many were the reminiscences of our days at college, chief of which was the description of the Sun Inn.

Those who attended the reunion were T. R. Angle, W. A. Bachman, J. D. Berg, W. E. Brown, W. S. Buck, J. Campbell, N. Chapman, A. S. Clay, P. Cloke, D. Corsa, J. A. Dent, G. P. Enke, W. L. Estes, Jr., N. E. Funk, T. B. Gilliam, R. G. Hodgkin, E. B. Hostetter, R. G. Kirk, W. C. Kline, W. H. Larkin, Jr., J. F. Leonard, W. H. Lesser, N. N. Merriman, T. B. Mickley, A. F. Murray, H. B. Nelson, E. V. Phelps, E. L. Rich, W. R. Schnabel, C. T. Schwarze, J. Shema, G. A. Sison, F. B. Snyder, N. H. Snyder, H. S. Walker and C. B. White.

I am sure that all of those present extend to Bill Estes and his helpers their thanks for the nice party that they pulled in honor of the reunion.

The following letter from Bill Estes is his final report on the affair:

I am sure you all realize that having thirty-seven men back for the reunion dinner breaks all records to date. I, personally, should apologize because there were not enough of the beautiful blue and red blazers to go around, but by the time we had to order them, which was three weeks ago, only twenty-eight fellows had signed up, and my fondest imagination did not leave me to suspect we would have more than thirty-five men back, and as these plagued things cost about \$8 apiece, I did not want to saddle up with too many extras.

Also, I had as hard working members of the Reunion Committee, Tubby Snyder and Pete Walker. About half the liquid refreshments and the broadcasting stunt was organized by Pete, and the band by Tubby. I need not tell you all what a successful and glorious reunion it was and what a delightful old reminiscent gleam we had about the unusual turnout of all the fellows.

Dan once upon a time said, "I appoint you, Bill, a permanent chairman of our reunion Committee," and I am here to say I don't know any job I have ever enjoyed more. I am counting on all you fellows for the next and then some.

Yours,
BILL ESTES.

1910 Enjoyed Every Minute

FIVE, ten, fifteen, twenty! Each reunion has seemed to surpass those that have gone before. We all thought when we had finished with the fifteenth that we had reached the pinnacle of real reunion enjoyment and yet I am sure that everyone who attended our twentieth agrees that we outdid even the fifteenth. Beginning Friday afternoon and extending into the small hours of Sunday morning, there was something doing some place.

We all felt that the Alumni Dinner Friday night furnished the best entertainment that has so far been put on. The Maennerchor party afterward was a success from every angle. Everybody seemed to enjoy himself and 1910 lived up to its reputation.

Our real party, however, started at Charley Gosztonyi's home on Saturday morning. After Charley succeeded in cleaning his garage where we made our headquarters, we were hosts to many visitors and hope that next time we shall have many more.

The band arrived at noon and was with us from then until five o'clock, leading two parades to the campus, one for lunch and the second to the athletic field.

We think the reunion class parade this year one of the best we have seen and many comments were heard on the appearance of 1910. At least we had some color!

The ball game, unfortunately, was overshadowed by the attractions at Charley's garage so we paraded back there and enjoyed ourselves until time

for dinner. Dinner at the Hotel Bethlehem brought us together again for the real heart to heart talks that make reunions. After the meal had been served, we called upon those two royal entertainers of 1910, Roy Williams and Dope Floyd. Maybe there are on earth two who can tickle the ivories better than they, but 1910 doesn't believe it. They still can play anything anybody ever composed and then some. Everybody joined in the singing and many verses known only to 1910 were sung to some old familiar tunes.

The class baby was on hand and maybe that baby can't sing and dance! Charley has raised his boy to be an actor and it looks as though he has all the necessary ingredients for success in that line.

There is only one regret in connection with our party. We had hoped to see a lot more than were here. We had nearly fifty, which was a good turnout, but there should have been twice that many. Remember we go this way only once and reunions are five years apart. Resolve now to be here for the next one.

A word in closing to express our thanks to Charley Gosztonyi for his untiring efforts to make the party a success. Everyone spoke of it and all of us appreciated the work he did to put it over. The results spoke for themselves.

M. L. JACOBS.

Class of 1913

"1913" was represented on Alumni Day by Wylie, Edwards, Cole, Wallace, Kocher, Weaver and Dynan. "Doc" Wylie was getting ready to sail for Europe on his way back to Turkey for another three years' stay. He has been enjoying a three months' vacation in the United States.

Case Rafter sent in a very interesting letter about Lehigh affairs in Washington, D. C. He says that Jack Hill is still connected with the Bureau of Standards. Jack's friends will be glad to get this news, as we have not heard much of him during recent years. Case says that Jack did not represent Lehigh in the University Bowling League during the past Winter. No doubt that was a good thing for the opponents as Jack was always a good athlete. Fred Eberle, whose address is 1822 Biltmore St., N. W., Washington, is another one Rafter has a report on. He says Fred is looking fine. Bob Watson was in Bethlehem about the latter part of May, on a business trip. He gets here quite frequently.

Case goes on to say that he is extremely busy on designing structures for three of the largest jobs in Washington. He says that, strange as it may seem, he is working nights and Sundays and has not had a day off since March 15. Last year he made the designs for the first tower building in the city.

Fifteen's Fifteenth

THE OLD TOWN of Bethlehem doesn't seem the same since June 6 and 7. Seeing the boys around the campus as of old certainly brought back memories of years ago. From a personal viewpoint, never was a better time had by all, and from the expression of opinions the whole reunion crowd had themselves a good time.

The class of 1915 was represented by about twenty but what was lacking in numbers was more than made up in pep

and enthusiasm. Friday evening the Hotel Bethlehem was the scene of the general Alumni Dinner. The place was filled and '95 seemed to carry first honors. Later that evening, the Home Club acted as sponsors at the Maennerchor, where one was at liberty to sing, dance or turn hand springs. After that jamboree, what was left of your classmates repaired to other pastures. Suffice to say, daylight was sneaking up on us when the curfew rang.

Saturday, after a complete rest of three hours, we met at the Alumni Luncheon at Drown Hall. The headquarters for 1915 was the scene of a quick change when we all became Bakers with a real radio callopie as a band. The band, however, turned out to be not so hot because just as we got started it blew a tube.

The class of 1910 very graciously invited us to their headquarters on Packer Avenue, where Charlie Gosztonyi acted as host. The whole parade was held up while we toasted toast but finally got started for the field. Along about the fifth inning Harry Crichton elected himself cheerleader and we sent one perfectly good Villa Nova pitcher to the showers. The old razz worked perfectly. Lehigh lost a very uninteresting game.

Seven o'clock once more saw us around the festive board at the Bethlehem Club and the final chapter was in the making.

After a short business meeting of the class, it seemed to be the unanimous opinion that we finish the keg. This was accomplished without any effort. We sang the old songs to our hearts' content.

There will be further news of your classmates in later issues and if those present meant what they said, the absent members will receive some personal insults or what have you, to try and snap 1915 into its rightful place among the best.

To those who were back, thanks a lot for your cooperation and we hope you were amply repaid for your journey to Bethlehem.

CARL SIEBECKER.

'20 Had a Great Reunion

Well, 1920 had a great Ten-Year Reunion. Everything went off very smoothly, and from what all of the boys said to me, I think that everybody had a very good time.

At the Alumni Dinner on Friday evening, June 6, eighteen of us sat down to dinner and after an excellent meal, on the mezzanine of the Ballroom floor, where only the Classes of 1910 and 1920 were seated, we marched to the floor of the Ballroom in a body, properly announcing our entrance with many shouts, cheers and songs. The excellent entertainment was very much enjoyed by everybody.

On Saturday morning the meeting of the Alumni Association was held in the Packard Laboratory, and we finally collected the wandering members together so that we all had lunch on the lawn outside of the Commons and Drown Hall. Again, we lined up in formation and proceeded to the steps of the Library, where good old Bill McCaa took the picture of our group. The great majority of the class wore white trousers and dark coats, as requested, and all of us had large brown and white parasols with a

large brown 20 painted on one of the white panels. When we passed Drown Hall, good old Dr. Drinker, who left Lehigh with us, was sitting on the steps of the Terrace and we stopped and gave him a grand cheer, which touched him very much.

Saturday evening, June 7, we all gathered for dinner at the Hotel Bethlehem, where again the management provided us with an excellent meal. That evening was reserved for a quiet reunion of our own, and we attempted hardly anything in the way of entertainment. Austie Tate was good enough to dine with us and to make a short speech to us and tell us just what the athletic situation was and what he expected next fall from the football team. All of us had better try to get back for the Lafayette game in November, because I think from what Austie said that we shall see a royal battle. Messages from Russell Bellman, L. H. Harwi and Claude Moyer, together with others, were read or announced to the class, and we all paused for a minute, according to Lehigh custom, and paid tribute to ten of our number who have answered the last roll call.

The headquarters which were maintained at 4th and Wyandotte Streets over the week-end were a great success. Here all of those who cared to could meet informally in good fellowship, sing and cheer without disturbance, and tell each other of what had gone on in their lives during the past ten years.

I am glad to be able to tell you that we have just about cleared expenses and if there is any deficit it will be so small as to be almost negligible. You will also see the statement of accounts sometime in the first week of July.

The following members of the class enjoyed all or a part of our splendid reunion week-end:

W. Raymond Allgaier, E. H. Baderschneider, H. S. Bunn, Russell S. Buss, Peter C. Cameron, William A. Carr, Robert C. Cory, George H. Erwin, E. W. Estes, H. A. Farber, Clyde R. Flory, Edward L. Forstall, J. C. Ganey, A. W. Glaser, C. G. Goodell, E. D. Heimbach, S. Hoffman, William H. Hulton, E. B. Ilyus, R. J. Knerr, W. J. Knerr, John N. Marshall, J. Henry Mersfelder, Jr., J. S. Naame, Norman A. Newell, J. G. Obert, Samuel Ostrolenk, Robert J. Ott, L. F. Reed, Harry C. Rice, Sherrill B. Richards, Harry S. Saxman, A. E. M. Shafer, L. M. Smoyer, A. D. Spillman, Joseph Spagna, Milo W. Sommers, James M. Straub, A. J. Sugar, Mercer B. Tate, Jr., William K. Wiegner and M. R. Wolfe.

Swede Johnson had planned to come but for some reason or other evidently could not make it, as we did not see him, much to our disappointment. Likewise, Ed. Stotz hoped to be present but was unable to get there, and our one honorary member, Mr. Warren A. Wilbur, who had contributed his share of the expenses, found it also impossible to be present. We, however, adopted some of the boys who were there and who, although not technically 1920 men, are so much a part of us that they celebrated with us. Among these were Pop Shipherd, Tim Donovan, Buckie McDonald, Stew. Stewart and others.

The best of luck to all of you, and please let me hear from you. We have our organization rebuilt and we are going to hold it for the benefit of the class and for the benefit of Lehigh.

'25 Came Back as Sailors

The Class of '25 celebrated its five-year reunion with all the exuberance that characterized its undergraduate days. Al Bayles proved his gang was up to date right at the start when he established headquarters in the Packard Laboratory. Of course, being a Mechanical, he chose that place by instinct. Al couldn't be on hand himself but had arranged things pretty well, earlier in the year, and turned them over to Bob Taylor, Jr., who followed his father's example (Bob senior was running the '95 gathering) and ran things in great shape.

This class didn't need a band in the parade. Their natty Brown and White sailor suits attracted enough attention and they were followed in close proximity by a caliope representing the Class

of '66—all the classes not having reunions. The sailor suits had another advantage of giving appropriate attire for some members of the class who didn't maintain perfect equilibrium throughout the activities.

The class gathered on the balcony above the lobby of the Hotel Bethlehem for its dinner, this time with music and plenty of it. After lots of noisy preliminaries the crowd quieted down to listen to a brief talk by Dr. Neil Carothers, head of the business department, and to discuss some plans for the future conduct and behaviour of the class.

Among the serious things accomplished was the election of a partly new executive committee. Al Bayles remains at the head of it. Bob Taylor was chosen secretary and treasurer. Other continuing members are Bob Adams, Dick

Davis, and Pete DuBois. The new members are Larry Kingham, Whitey Wardell, Ed Curtis, Stogie Stahl and Red Gibson.

Someone suggested that the class acquire a silk flag of its own similar to those used to decorate the ballroom for the dinner on Friday night. This reminds us that the class had a good representation at this dinner; in fact as the evening wore on the gang kept increasing to such an extent that the chairs allotted at the '25 table were insufficient. To get back to the flag. Everybody was heartily in favor of buying a flag with some of the money remaining in the class treasury.

The idea of an informal reunion every year was broached and while no definite plans were evolved for this, it is more than likely that a number of '25 men will be on hand again next year.

Before the meeting was over, a telegram was received from Al expressing his regrets at his inability to be present and sending his regards to all the members of the class at the reunion.

The records kept by Bob Taylor showed that fifty-six men were back. Several others had planned to come but found it impossible at the last minute.

'29's Reunion Pretty Good for the First Time

Our first reunion made up in quality what it lacked from a quantitative standpoint. There were not many of us in the P-grade, only 25 in fact, and there were even less, 20, at the banquet at the Hotel Bethlehem. Even so, all those who did attend either or both functions seemed to enjoy themselves, for we had a good crowd back. Just ask us.

Headed by Red Crewe and Jack Kirkpatrick, we marched into the Stadium behind a large group of '25 men back for their first big reunion, their 5-year get-together. Others sporting brown and white dinks on which were displayed our

—JOHN HANCOCK SERIES—

How to make bequests —scientifically—

Make your bequests in the form of life insurance and pay the premiums out of current income. Thus you can accomplish your object with three-fold effectiveness. First you have the means of creating the bequest funds. Secondly, you have the certainty that they will reach their destination intact and strictly in accordance with your wishes. Thirdly, the remainder of your estate is undisturbed, so that no loss occurs due to the necessity of transferring funds at any given time.

Over Sixty-Seven Years in Business

numerals were Kars Ahlberg, Steve Becker, Ted Benton, Joe Colclough, Bob DeMoyer, Bob Ellis, Stu Enscoe, Dan Farnsworth, Andy Horgan, Min Inaba, Skipper Kelly, Phil Kratz, Jack Manley, Ed Midlam, Skipper Morrison, Mex Muntrick, Fred Naylor, Gene Pelizonni, Jimmy Reill, John Schell, Anton Schweickhardt, and Jim Whitaker. Our Ivy Planter was also present at this year's festivities!

Later at the informal and actually speechless (but there was plenty of just plain talk) banquet, Horgan brought along Joe Conrath and Clem Stanton, Bob Hertzler and Jake Jacobi joined us, Brennan rushed in direct from an afternoon law final at Fordham, and Ed Blanchard, Dick Moncke, Tod Neath, Fran Palmer, and Ted Steinmetz augmented our party, which also included the following who had paraded: Becker, Crewe, Colclough, Enscoe, Kirkpatrick, Manley, Morrison, Reill, and your correspondent. We broke up early and went our many diverse directions our first year back.

Others I noted on the campus who have not been officially recorded include Bill Adams, Norm Beer, Henny Behr, Bobby Myers, and Gus Wiesner. Which means that at least 40 members of our class were back for the weekend.

Observed in the picture of the graduating class at Moravian were Phil Philippi, Don Roe, and Harry Wilbur.

Among those who received baccalaureate degrees from Lehigh this June are some who completed their courses last February or who matriculated with us back in the fall of '25 and who desire to be affiliated with '29 for alumni purposes. Any such should notify me.

Croll- Reynolds

Croll-Reynolds Evaporator with Tube-Bundle withdrawn for Cleaning

EVAPORATORS

Croll-Reynolds Evaporators are of the straight submerged tube type, with horizontal cylindrical shell, designed primarily for supplying distilled water for boiler feed make-up and similar industrial uses. The large disengaging area inherent in this design, together with the use of a very effective separator insures minimum carry-over of liquid with the vapor. These evaporators are built in standard sizes suitable for vacuum or high pressure service as single or multiple effect installations.
